CITY COLLEGE CIRCLE
YPSC, 111 West 15th St. Floor

Campus WAXES INDIGNANT

The actions of the American Student Union and of the Peace Committee of the Student Council, last Thursday, should arouse all those who believe in minority rights to action. In the first place, the refusal of those arranging the meeting to permit a speaker with an opposing point of view, left the opposition with few means of making known their point of view. The second action of attempting to exclude banners signed by the Anti War Club from the stadium, by force, was even more despicable. The right for whatever disturbance arose must remain with those who would abrogate democratic procedure.

Union Bands or Scab...

At the last meeting of the Student Council, it was decided to hold a referendum vote of the entire student body on the question of requiring union bands for all college functions. The opposition to requiring union bands, oddly enough, was led by the delegates from the A.S.U. club in the college. Much of his support came from delegates elected on the A.S.U. ticket in the last elections. The vote in favor of union bands must be decisive! Make City all Union!

(continued on third page)
The Student Strike

NORMAN THOMAS

If ever there was reason for a student strike against war and for peace it is this year. That strike ought to be an impressive demonstration and a useful preparation for a strike against mobilization for actual war.

The impressiveness of this year's strike may be a genuine factor in the struggle to keep America out of the war toward which it so rapidly drifts.

To be impressive the strike must obtain the maximum possible unity. Rival strikes on certain college campuses may do more harm than good. On the other hand, it would be worse than folly to carry out a purely formal protest against particular features of the government's policy by students who openly or tacitly accept the idea that by the collective security road the U.S. may be led into a war which they must support. It seems to me that the minimum basis for effective action is laid down in the call adopted by the "Keep America Out of War" Committee. It should be noted that most of the points have been approved even by the A.S.U., which I believe is also committed to opposition to the R.O.T.C. on the campus. This opposition to R.O.T.C. is a point which college students especially should add to the program laid down in the call.

THE VITAL THING to be brought home this year to students, workers and the public is the danger of war, the cost of war, the certainty that war will bring fascism or its equivalent at home, the absolute certainty that the victory of this capitalist nation at infinite cost will not change (continued on page 3)

The Debs Labor School has announced that it will begin in the fall of this year. Courses include "Fundamentals of Marxism" as well as seminars on trade union work. Rebel Arts is the Place, 6 East 17th Street.

ASU INVESTIGATES

The Executive Committee of the American Student Union has established a committee to investigate "disruptors." We hope that the committee will not adopt any principles of Soviet justice. We believe that will have plenty of investigating to do if they would investigate those who, in the name of democracy, refuse to permit to the minority the right of expressing its views. Those who, without authority, attempted to exclude Anti-War Club posters from Thursday's demonstration out to be the first to be investigated.

The Student Strike

the forces which produce war and fascism, and that any military help our government gives to China must not be paid. Unless the strike says this, and says it effectively, it will miss one of the greatest opportunities that this college generation will ever have to serve itself and the cause of peace, not only in America but in the world.

"YPIUS TAKES APRIL" (con'd from page 1)

We made every attempt to fulfill all requirements as to the posters. Each was signed by the above Committee of the Student Council which is the body which possesses the authority normally. Those who pointed out which poster wore to be excluded from the stadium themselves acted without authority as the Council had not voted to exclude any signs. Those who attempted to exclude the signs by force or the ones to be condemned for their actions. The fault rests with the accusers and not with the accused. The Peace Committee would do well to learn from this demonstration and in the future act in a more democratic manner and permit minority speaker at the strike. A nonviolent demonstration has no place in City College. Only in those countries which have rejected the democratic way accept demonstrations.
