oops!!!!
The founding of the Bronx Community College in 1957 crowned almost a decade of community effort. The college was set up under the State Education Law by action of the Trustees of the State University of New York on April 11, 1957, approving previous actions by the Board of Higher Education and the Board of Estimate of the City of New York. Hon. Arleigh B. Williamson headed the Board of Higher Education Committee on Community Colleges in the early stages of planning Bronx Community.

Dr. Morris Meister was named first president on October 21, 1957. In December, 1957, Hon. Ruth S. Shoup, Chairman of the Bronx Community College Administrative Committee of the Board of Higher Education, introduced the President of the college to the Advisory Committee, composed of leading citizens. President Meister assumed his duties on February 1, 1958, and began the organization and planning to initiate instruction, assisted by a Ford Foundation grant. The first students were admitted one year later.

Although the physical plant was not then available, Hunter College graciously made space available at its Park Avenue campus until the middle of March, 1959, when the college moved into the present building on East 184th Street.

In September, 1959, the Evening Session was established. At the same time, the Ford Fund for the Advancement of Education gave the college a second grant for the development of a program of pre-college upgrading studies for selected students.

In September, 1960, a renovation project, planned since 1958, got underway at the East 184th Street campus, and the college arranged classes at the Bronx Union YMCA. Also in the fall of 1960, aided by the Kellogg Foundation, the college opened a demonstration center for the New York State Associate Degree Nursing project.

The completion of the fall semester at Bronx Community was climaxed with the first commencement exercise held in the Little Theatre on the Bronx campus of Hunter College, Thursday evening, January 26, 1961.

The first graduating class of twenty-nine members had a truly peripatetic education, but their efforts were crowned with success. Every student who applied for admission to a four-year college was accepted and the job seekers were all well placed. And thus, in a period of less than four years, a noble dream became a reality.
GENESIS

Genesis—the beginning! Since this is the first yearbook at Bronx Community College, the name we have chosen for it is, we feel, most appropriate. From the name evolved an idea—the idea of telling the story of the beginning of our Alma Mater. In short, Genesis 1961 encompasses the theme of creation—the creation of a complex world of young people at 120 East 184th Street striving for recognition in our society.

Although Genesis 1961 tells the story of B.C.C.'s birth, we sincerely hope that this record will inspire all future graduates with the same enthusiasm that characterized those of us who created this book; work and that this name will serve future classes as well as it served us, for in a truly meaningful sense, every class is a new one. Every class has its Genesis—its beginning!

BRONX COMMUNITY COLLEGE
120 East 184th Street
Bronx 68, New York

Sponsored by the Board of Higher Education City of New York

Under the Program of the State University of New York
In the annals of every institution there appear dates of singular importance. February, 1958, marks such a milestone here at Bronx Community College. On this date, Dr. Morris Meister was appointed President of our college, a consummation of many years of service as Principal of the Bronx High School of Science. Within these two years, President Meister has assumed the triple role of founder, innovator, and leader.

As a founder and innovator, he has endeavored to develop unique and challenging programs to meet the needs of students who seek and deserve opportunities in higher education. Through his guidance, Bronx Community College has established itself as the new college in the borough of universities.

"...let each become all he is capable of being" is the creed that President Meister, as a leader, has bestowed upon us. At this time, we find it most gratifying to pay tribute to this man. Through his fine leadership we find ourselves still functioning as an organized unit, despite the inconveniences of reconstruction and renovation.

This yearbook, the first in the history of Bronx Community College, is dedicated to President Morris Meister. He has caused a vision to become a reality, and he has inspired us in intellectual pursuits, in community service, and in personal relationships.

"Though thy beginning was small, yet thy end should greatly increase."

—Job 8:7
To Our First Graduating Class:

For two years the faculty has given you its devoted and affectionate effort. They came from more than thirty different colleges to join you in the thrilling work of building a new institution. They brought with them long years of training, successful experience, ideals and hopes. As you leave them now, an important part of their lives goes with you and they will share in your future achievements and happiness.

There is always a beginning, and beginnings are never easy. We stood shoulder to shoulder in the difficult tasks of bringing into being the important things that make a college. We watched you grow toward a better and deeper understanding of the world about you and the part that you can play in it. You helped us to see our goals more clearly and to gain confidence in our procedures. We take pride in your many successes.

Finally, you showed amazing patience and fortitude as we whisked you from Park Avenue to 184th Street and to the "Y" in physical plants which are even now in the hands of rebuilders. Those who come after you will reap a fuller harvest from the sacrifices which all of you made.

Now that the ship is launched, you, the passengers, and we, the crew, sail out into the world where no doubt we shall be buffeted by wind and storm. But the ship is secure and the engine strong. Bronx Community College goes with you to gainful employment or to a continuation of your education in college. Your faculty will continue to stand by, because they will never forget you or these first two years together.

Thomas W. Meister
President

Morris Meister
TO THE MEMBERS OF THE GRADUATING CLASSES OF 1961

Ladies and Gentlemen:

To you, our first graduates, through this, our first yearbook, I extend warm greetings and heartiest congratulations.

Having survived—even thrived on—conditions of educational austerity, you deserve high praise. Attendance on several campuses and other vicissitudes, difficulties, and problems caused by the renovation did not dismay you. We of the faculty are proud that you turned adversity into opportunity, grimness into cheerfulness, and inconvenience into challenge—which you met successfully.

There is an old maxim—"All beginnings are hard." However, inherent in any new situation is hope and the possibility of preparing something useful for posterity. You can be proud that you played a role in our pioneer days. Is it not uniquely appropriate that the graduation ceremony that concludes your official stay with us and makes you alumni is called "Commencement," the beginning? In like vein, your yearbook theme is "Genesis." As you know, another "Genesis" tells how man developed ideals to ennoble human life and free the human spirit. We hope that the genesis of your higher education with us has done something like this, too.

Getting to know you and to share with you in the building of Alma Mater has been a pleasure. We hope you will return many times in the years to come to continue your friendships through the Alumni Association.

Felicitations and best wishes for success in every venture!

Cordially yours,

ABRAHAM TAUBER
Dean
It has been a privilege to work with the staff in the creation of the first yearbook, and I wish to express my sincere appreciation to the courageous students who joined me in this initial venture. This has been an arduous task and you have proved your dedication to the college by giving your time and energy under difficult circumstances. I hope that the experience has been a profitable one for you. My wish for continued success and happiness goes with you as you go on to other achievements.

PROFESSOR THELMA SPAULDING
Faculty Advisor
This book, Genesis 1961, is the first printed expression which represents, by the fact of its publication, the hard work and efforts of the student spirit at Bronx Community College. In particular do we wish to thank those editors and staff members whose persistence and fortitude have yielded this triumph over late hours. They have braved the snow, filled ash trays, and acquired frozen ears and hands in order to write and listen to the no's and maybe's of red tape. To these people and to all others who have in some way assisted in the publication of this book, we offer our sincere thanks.

It is our opinion that Genesis 1961 is the first of many yearbooks, and with the continued enthusiasm and spirit of the students of Bronx Community College, steps must be taken for the establishment of a history complete with both Old and New Testaments. We hope that this book will inspire the many young minds of Bronx Community College to combine and record the ideas and efforts that will become tradition at B.C.C.

IN MEMORIAM

The sudden death of Professor Louis B. Carlan was both a shock and a great loss to the students and faculty of the college.

For those who knew him, it is superfluous to speak of his warmth and his friendly and helpful nature, or to remind them of the cordial atmosphere he helped to create at the college. Professor Carlan was a ready source of dependable advice that was invariably founded in his broad experience, excellent technical knowledge, and common sense.

For those who didn't know him, Professor Carlan was an Assistant Professor and Deputy Head in the Electrical Technology Department. His greatest abilities were dedicated to the students who were privileged to be in his classes.

Although Professor Carlan is no longer with us, the contributions and the mark he left are so strong that the department and its members and all the students to come will reap many benefits because of the great legacy he has bestowed upon us.
It's amazing how happy one can get on ice cubes.
A funny thing happened to me on the way to the Board of Higher Education . . .

Bronx College Students 'Adopt' Boy in Hong Kong

Cheung Wai Hong, 11, a frightened, lonely boy abandoned by his father and whose mother is in a Communist prison camp in China, has found sympathetic friends thousands of miles away in The Bronx.

The Hong Kong youngster has been financially "adopted" by the Electa-Phi House Plan of the Bronx Community College through the Foster Parents' Plan. The Bronx group will contribute $15 a month toward his support for at least one year.

The boy's mother was arrested for not "cooperating" after Communist troops occupied Canton in 1949. His father fled with him to Hong Kong but with the city overflowing with thousands of homeless, hungry refugees, and unable to find a job, the father left the child with friends.

Later the boy went to live with a grand-uncle, who is unemployed and has barely enough to eat. If not for the kindness of Wai Hong's grandmother and neighbors, he would be starving.

Of the $15 contributed monthly by The Bronx students Wai Hong will receive $8 in cash. The remainder will be used for periodic food and new clothing packages, translations of letters, medical services and education.

Foster Parents' Plan, which has rehabilitated more than 76,000 children since its founding in 1937, is now helping more than 19,000 youngsters in Greece, Italy, South Korea, France, Vietnam and Hong Kong.

Over the past 25 years more than 600,000 individuals and groups in America have helped needy children overseas through the plan, whose headquarters are at 352 Park Ave. S.

The Electa-Phi House Plan of the Bronx Community College has adopted an eleven-year-old Chinese boy, Wai Hong, who lives in Hong Kong, China. Wai Hong is a bright youngster, originally from Canton, whose mother was arrested by Communists after their troops occupied the city in 1949. His father fled with the boy to Hong Kong, but abandoned him and immigrated to the United States. The boy has lived in poverty but he attends school and, with the help of Electa-Phi, will now have proper food and clothing.

Electa-Phi was organized last October shortly after the fall session began and the club sponsored the first dance of the term. The organization has been active in school affairs and has contributed to the Scholarship Fund of the College. Anthony Bruno, a member, was recently given the Phi Beta Kappa award for outstanding scholastic achievement and an award of merit for his work in Electrical Technology. The president of Electa-Phi, Michael Wolfson, is managing editor of the student newspaper, The Communicator, and other members of the organization serve as reporters.

Officers of Electa-Phi are Michael Wolfson, president; Ronald Levy, vice-president; Anthony Bruno, secretary; Richard Gordon, treasurer. The club sponsor is Professor Thelma C. Spaulding of the Department of English and Speech.
**RADIO CLUB**

In September, 1959, Mr. John Uschinowski supervised the organization of the Amateur Radio Society. The purpose of the organization is to assist interested students in getting a government license which will allow them the unique privilege of owning a transmitter for the home or the car. Much of the equipment for the club was purchased from funds contributed by the Student Council.

On January 9, 1961 the Federal Communications Commission issued an amateur radio license to Bronx Community College. A more important incident occurred on February 17, 1961 when two members of the society operated a transceiver from the window sill of our own Electrical Technology laboratory and spoke to the New York University radio club for an hour.

Station BCC calling all students.

Sigma Epsilon Xi Houseplan was founded by fifteen women of Bronx Community College in October, 1959, to serve as a basis for community service and for charitable and social functions. Miss Stringham, their faculty advisor, has always helped in the planning of all functions. The chief charitable activity of the houseplan is the support of a Korean foster daughter, Kwi Ok Kang. Sigma Epsilon Xi sends the child monthly checks and letters, and in return receives letters from Kwi Ok. Other activities include collections for the Muscular Dystrophy Association and aid at official college functions.

The girls also enjoy attending fraternity parties and sponsor an annual Christmas party. Plans are also being made for an annual graduation party which they hope will be as successful as their parties.
College is Dedicated Today With Meister as First President

On April 11, 1959, President Meister and the Board of Trustees dedicated the Bronx Community College of the City of New York.

Dr. Meister, Chairman of the Board of Higher Education, will preside over the ceremonies at the dedication of the Bronx Community College on Monday afternoon, May 11, and the Board of Higher Education of the City of New York will be represented by Dr. William M. Grass, Secretary to the Board of Trustees.

Mayor Robert P. Wagner, who will deliver the dedicatory address, explained how the school had come into being, the hope that it would grow and prosper for the students and the community.

Building to Have Extensive Changes For Modernization

Formerly located in the Bronx High School of Science, the building is to undergo extensive alteration and rehabilitation, according to plans drawn up by Perkins and Will, well-known architects, in consultation with the faculty.

Student Council Works on Constitution, Code for Pupils, and Organizing Clubs

The Student Council of the Bronx Community College has already formed a committee to draw up a constitution. Another prospect is to develop a code for student conduct and standards. Clubs and organizations will be chartered in accordance with student interests.

Arts student, he is the right-hand man of the executive of our Student Council. The Treasurer of the Student Council is a graduate of Morris High School and is a Liberal Arts student. She is working with and cooperating with the constitutional committee.

Row 1, left to right, seated: Barbara Cacobacci; Judy Levy; Madeleine Freed; Barbara Schneebaum.

Row 2, standing: Steven Schneitzi; Gail Levine; Starr Quinn; Dr. Reynolds; Dorothea Bailes; Robert Schneider.

Not shown: Harriet Lobe; Yvonne Lorneiro; Shirley Epektorow.
The Student Council of Bronx Community College is an organization consisting of members who are elected each semester by their fellow students. This organization, as stated in the Student Council Constitution, "... is dedicated to the effective utilization of opportunities provided by the people of the State of New York, the City of New York, and the Bronx Community College; to the fulfillment of student responsibilities as members of the community devoted to higher education, and to the promotion of the general welfare of all the members of the student body."

The Council has been encouraged by the members of the faculty, the Dean of Students, and the President of the College to use to its greatest advantage the privilege of self-government. It has also been encouraged to utilize to its fullest extent the ability to expand extra-curricular activities. Participation in these extra-curricular activities has created in us a feeling of belonging, of self-enrichment, and of independent thinking.

It is with these concepts in mind that the Student Council has carried out its goals.
The Glee Club was organized in October, 1959 under the direction of Mr. John Furst. Its debut came at the Brotherhood Assembly in November.

In December at the Christmas-Chanukah Assembly, the Glee Club presented a program of music from both holidays closing with audience participation in the singing of "White Christmas."

In March, 1960 while the student body was confined to the auditorium and the firemen were at work removing part of the roof, the Glee Club entertained with a medley of old favorites.

At the Concourse Plaza Hotel in the Fall of 1960, Deborah Murphy sang, representing the Glee Club.

At present the Glee Club under the co-direction of Mr. Furst and Dr. Salzberg has prepared for Commencement exercises.
Retail Buying Techniques

Nineteen members of the class in Retail Buying of the Department of Business and Commerce, along with their Professor, Mr. Cutler, went to the Men’s Sportswear Show at the Hotel Statler-Hilton.

Breakfast and a fashion show occupied most of the morning. They then toured the various manufacturers’ show rooms in the Trade Show Building located at 505 8th Avenue. Their guide for the day was Mr. Paul Berman, buyer for Ripley Clothes.

We call this fabric Ripley’s Believe It or Not.

exodus
alma mater

Where the sunrise greets the hilltop
With its radiant sheen,
Stands our noble Alma Mater
Of the gold and green!

Chorus:
Lift the chorus! Let it travel
Up to heaven's blue,
Singing to our Alma Mater,
B.C.C., to you!
Green, the life that springs within us,
Urging us to grow;
Gold, the sun that lights our pathway,
As we seek to know.

Chorus:
Of the life and of the knowledge,
May we worthy be,
As we join all men and nations
In fraternity.

Chorus:

(Words by Mrs. Karen DuBin of the English and Speech Department. Music to the tune of “Annie Lisle,” well-known as the melody of the Cornell University anthem.)
commencement, January 1961
On the evening of January 26, the Bronx Community College graduated its first class. Since Hunter College made space available for the first classes of B.C.C., it was appropriate that our first commencement was held through the kind cooperation of Hunter—in the Little Theater of the Bronx campus.

Dr. Meister led the academic procession which included the Most Rev. Joseph M. Pernicone, Auxiliary Bishop of New York; Hon. Ruth S. Shoup, Chairman of the B.C.C. Administrative Committee of the Board of Higher Education; Hon. Arleigh B. Williamson, member of the Board; Rev. Edler G. Hawkins, Vice-Moderator, United Presbyterian Church, U.S.A.; Dr. Paul Orvis, Executive Dean for Community Colleges, State University of New York; Hon. Renato J. Azzari, member of the Board; and Rabbi Samuel Penner, Jacob H. Schiff Center.*

The distinguished guests were followed by the faculty and twenty-nine students, twenty-one candidates for the A.A. degree and seven for the A.A.S.

The graduation exercise was an important moment in the lives of those who received degrees; it was a milestone in the history of the college; in short, it was a memorable experience for everyone—students, parents, faculty members and administrative officials.

*Guests listed in order of appearance on the program.
Reverend Edler G. Hawkins, Vice-Moderator, United Presbyterian Church, Offering a Prayer.
Dean Paul Orvis, Executive Dean for Community Colleges, Awards Prizes to Members of the Graduating Class.
Hon. Arleigh B. Williamson, member of the Board of Higher Education, Addresses the Graduates on "Aesthetic Illiteracy."

And by using the "Idiot's Formula", we find the atomic weight of oxygen is 4,000,972½.

Charge it please...

Twilight Zone

And now for the English translation...
I now pronounce you man and volleyball.

"But officer, I'm a college boy." "Ignorance is no excuse."

And it came to pass... (or fail)
CARNIVAL AND OPEN HOUSE

Two students down and one to go.

Proceed at your own risk.
I could...

have danced...

all night...

if he...
Swing low... real low.

christmas dance

had kept off...

my feet
hillel

newman
Two more cha-chas and you get an "A" in the course.

If you don't like it, get out and walk.
sports
On Friday night, March 26, 1960 a student-faculty basketball game was held in which the students swept the faculty 74-39. The gymnasium was packed with spectators as the faculty took this beating from the students.

Members of the faculty team included Messrs. Steueran, Newman, Finnegan, Schaumberger, Baldwin, McGrath, Bethea, Sacher and Handel. High scorer for the team was Professor Schaumberger with twelve points.

Members of the student team included Messrs. Hickey, Rudnick, Bergman, Ross, Sperazza, Lipsoy, Brand, Cohen, Roy, Williams, Geiger and Landes. The students' high scorer, with fourteen points, was Hickey.

Refereeing the game was Joseph Klausser. Keeping tabs of the score was Michael Rosenthal's job.

The fun and excitement of this game cannot be easily forgotten as the students saw their professors take part in one of their favorite sports.
"If we win, we automatically flunk English, Chemistry, History and Gym."

"Make me look good...my wife is watching."

"In the mature male..."
In October of 1960, Mr. Michael Steuerman led our wrestling team toward intercollegiate competition resulting in a winning scrimmage over Hunter's Wrestling Club.

Our new-born school's prestige grew in one more facet, for on March 3, 1961 the team's intercollegiate standing won them an invitation to wrestle in the National Junior College Championship. An outstanding contribution and thrill was added when Fred Wiethop proved to be the undefeated champion of the team.

John Cargagano, Mike Dacker, Barry Kuperman, Charles Matuza and Bob Stahli competed in the championship. Unfortunately, Alan Segal was unable to participate because of an injury. Roger Hudson, another promising athlete, is a candidate for next year's championship.

The outlook for the Bronx Community College wrestling team is hopeful and it is expected that this team will lead the way to other intercollegiate activities.
swimming
Oops!!!!
a nose is a nose is a nose is a nose is a nose
Ladies and Gentlemen—I am going to dismiss you ten minutes early—please leave quietly so as not to wake the other classes.

Who says we're two years behind Russia?

This exam will be conducted on the honor system—please sit three desks apart in alternate rows.
But Mr. Furst, I was only two seats away from the correct answer.

How many credits for this course?

A compulsory senior meeting in the auditorium at 2:30.
Before

It is amazing what a little nitro-glycerine can do.

After

dig we must

You load 16 tons... and what do you get?
Pssst... Save a seat for me in Mollies

**The walls have ears**

"Well I figure... if I get 99 on the final... I'll have a D in the course."

"No Miss McLoughlin, the tse tse fly is not a flying INCEST."

Man we'd most like to #?!! (Censored)
"All right, all right... I'll stop at the second floor!"

Most likely to succeed.
Welcome to your local ptomaine ptavern.

But I only had a hang-nail

What's for dessert?

It only hurts when he laughs

Where are the aspirins?
