Welcome: Education is a journey, not a destination.

Welcome to the LaGuardia Chile Study Abroad Website. This website was designed for students who were interested in participating in the program in Fall II of 2012 and 2013. It also serves as a resource for those educators interested in developing their own study abroad opportunities. Finally, it was a way for members of LaGuardia and the Universidad Central de Santiago Chile to become informed about the program and its participants. Please take a little time and see what you can learn.
