PRESIDENTS' FILES

HOROWITZ

Note: President Horowitz's papers were transferred to the Archives in several segments, in January, July, and September 2005, and work on them was begun in November of that year. They comprised 14 cardboard boxes of about one cubic foot each and four standard five-drawer metal filing cabinets totaling approximately 50 cubic feet. That work was completed in March 2008; but additions were received from the Office of Public Affairs and the President's Office from time to time during the rest of 2008 and the spring and summer of 2009 and from the Provost's Office in 2010. Still more was received from Horowitz in June 2011 and from the President's office in 2012 and 2013. All these additions have been integrated into the existing files.

To the extent possible the papers have been processed in the same way as those of her predecessors, specifically in the selection of folder titles.

Horowitz often used the back of pages of typescript for new notes, drafts of new papers, informal correspondence and the like. Whenever the archivist came across such pages the side containing the unwanted text was crossed out in pencil; but users should be aware of this to avoid confusion as papers are removed from the files and examined.

A list of abbreviations she used frequently is provided here, but it is far from complete:

- ABA – Applied Behavior Analysis
- AFP – Association of Fund-Raising Professionals
- APA – American Psychological Association
- APF – American Psychological Foundation
- APS – American Psychological Society
- CGS – Council of Graduate Schools
- COGDOP – Council of Graduate Departments of Psychology
- HDFL – Human Development and Family Life (a division within the University of Kansas)
- ICIS – International Conference on Infancy Studies
- Jnl* – Journal (used in parentheses after a journal title)
- KID Project – Kansas Infant Development Project
- KU – University of Kansas
- NASULGC – National Association of State Universities and Land Grant Colleges
- NBAS – Neonatal Behavioral Assessment Scale
- NICHHD – National Institute of Child Health and Human Development
- NIH – National Institutes of Health
- PITS – People in the Street
- SRCD – Society for Research in Child Development

Presidents' Files / Horowitz

Articles, Speeches and Other Writings

The full texts of Horowitz's articles, speeches and other writings are filed chronologically in eight loose-leaf binders. (The typescript of a 1975 monograph edited by Horowitz, to which she contributed several chapters, is filed in a separate container shelved between the 1970s and 1980s binders.) Drafts, revisions and accompanying correspondence are filed with one copy of the final full text under appropriate subject headings in the appropriate subgroup. However, for a few articles or speeches there may be neither a copy nor even any reference under the subject. Also, there is no certainty that this compilation includes absolutely all the articles, speeches and other writings of Horowitz's prolific career.

The same item may appear here, with variations, as a conference paper, a journal article, and a chapter in a book, under different dates. An effort has been made to bring the several versions together if possible.

A few reprints or extra copies may be filed with the originals in these binders.

Correspondence—Names

Note: Papers are filed here only if there is no identifiable subject or if the named person is the subject. Otherwise, papers by or about specific persons are filed in Correspondence—Subjects under relevant headings denoting their fields of activity or the organizations to which they belonged. There are no cross-references from here or other indicators to that effect.

For several persons there are brief notes about material of special interest contained in their files, i.e., papers other than routine reports, greetings, condolences, notices of appointments, and the like.

Many papers are missing: letters to which Horowitz replied, her replies to letters received, replies to her letters, enclosures mentioned in correspondence, etc. Some of these may have been passed on to other people to handle; others may have been discarded deliberately in the course of weeding the files. A special problem is presented by e-mail because the sender's and recipients' names may not always be given in full or because it may go to numerous addressees at once.

Another problem is due to Horowitz's habit of addressing people by their first names without indicating, somewhere on the document, what their last names are. Most of these documents are properly filed in Correspondence—Subjects; in many others the people could be identified by the Archivist. In the few remaining cases the documents are filed in the Personal Materials subgroup, under "Unidentified or Fragmentary Papers."

Correspondence—Subjects

Note: The papers here span the period from the early 1960s to Horowitz's retirement as GSUC president in May 2005 and post-retirement roles at GSUC. They cover not only her role as GSUC president and her earlier tenure at the University of Kansas but also her extensive activities in education and psychology generally and in developmental psychology, her specialty, in particular. They also cover her deep involvement in Judaism and in the movements for women's rights and racial equality.

As far as possible, folder titles are consistent with those used in other record groups. Usually, titles are in the normal word order, i.e., not inverted (e.g., American Psychological Association, not Psychological Association, American). There are no cross-references from personal names, but cross-references from synonyms and related terms are used extensively. Folders and the papers they contain are usually filed in reverse chronological order, i.e., with the latest in front.

Developmental Psychology (70 folders in 17 boxes) 1955-2004

Note: This was Horowitz's major field. Her interests and studies were wide-ranging and included many different aspects -- development in infancy and early childhood, problems of mentally or physically handicapped children as well as those of the gifted and talented, problems of defining normal and abnormal behavior and rates of development, the issue of heredity vs. parental upbringing and other environmental and social factors, and many more. The papers here encompass her writings, many as co-author, as well as several by her peers, presented at meetings or published, comments on these, proceedings of conferences, seminars, workshops and symposiums, research plans, grant applications, and related correspondence. The folders and the papers within them are usually arranged in reverse chronological

order. However, sequences of documents, such as those dealing with specific grants or with presentations at conferences that are later recast into articles and still later appear as chapters in a book are kept together as far as possible. The descriptions of the contents of each folder [below] are limited to items of major interest

Personal Materials

Note: This subgroup comprises documentary as well as non-documentary materials (“objects”) pertaining to the personal, more private side of Horowitz’s life, although the dividing line between “professional” and “private” is often blurred. (For example, if a vacation is combined with business travel, papers about this are filed not here but in the Correspondence—Subjects subgroup wherever the business aspect is covered.) Here, as throughout the Archives, documents are filed in folders with appropriate titles, and the folders are stored alphabetically in archival boxes. The boxes are labeled with the titles of the first and last folders they contain and are shelved in alphabetical order. Non-documentary materials and oversize documents are stored in suitable containers, which are labeled to indicate their contents and shelved with or near the archival boxes.

Appointment Books (2 boxes) 1991-2005

Note: Entries appear to be random and sparse. There are 2 books for most years after 2000.

Awards and Honors. *Note:* Most papers about awards to Horowitz are filed under the sponsoring organization’s name (e.g., American Academy of Arts and Sciences, Antioch College, Feminist Press) in the Correspondence—Subjects subgroup. Her poem, “Musings on Being Honored” (1998); correspondence about Federation of Reconstructionist Congregations and Havurot naming “Seventy Women of Distinction” including Horowitz (1992); also, 5 plaques (stored behind the folder): Association of Fund-Raising Professionals (2005); UJA-Federation Committee of John Jay College (2000); African-American Community of Lawrence, Kansas; College and Community Fellowship (1991); Kansas Press Women (1983)

Biography

Folder 1: formal curricula vitae and briefer sketches (1977, 1990-1993, 1998-2001, 2010)

Folder 2: informal and autobiographical sketches; entries in diverse editions of *Who’s Who*; articles in diverse journals; also, her autobiographical essay for an American Psychological Association symposium, later included in the book *Models of Achievement* (1989, 1991, 1993, 1995-2007)

Folder 3: correspondence about her appointment as Vice Chancellor for Research, Graduate Studies and Public Service at the University of Kansas, earlier positions there, her outside professional work, and offers of positions elsewhere (1975-1978)

Note: other papers about offers she received are filed under the institution names in the Correspondence—Subjects subgroup where there is more substantial material. Papers about her appointment to the GSUC and related biographical and personal material are filed under “Administration—the Presidency” in the Correspondence—Subjects subgroup
