PRESIDENTS' FILES

PROSHANSKY

Note: Dr. Proshansky became acting president of the Graduate School in mid-1972, when Dr. Rees retired, was inaugurated as president in 1974, and died in December 1990, a few months before he was scheduled to retire. An initial but fragmentary collection of his papers was processed in the spring and summer of 2003, and formed the basis for this Guide. In December 2003 and May 2004 two much larger collections of his papers were uncovered and processed, and some 30 more boxes of papers surfaced in the winter of 2005/2006. (The 2006 accession consisted of papers evidently collected and maintained by Joan Byers, Proshansky's executive assistant.) In 2008, 2009 and 2010, additional papers were transferred to the Archives from the Office of Public Affairs and – some as late as 2013 – from the Provost's Office. All the later accessions have been processed and integrated into the initial files. This Guide covers the entire collection of his papers now in the custody of the Archives.

Several files appear to have been transferred unaltered from Dr. Rees's office to Proshansky's and to have remained that way (see, for example, folder 3 under "Programs (General)"). Matters addressed by Proshansky before his final illness were handled, during it and after his death, by the Provost, Dr. Steven Cahn, who continued as Acting President into late 1991 and as Provost until August 1992; and papers about these matters are integrated here in order to maintain continuity. Also, some papers post-dating his death were added to his files and remained there instead of being transferred to those of his eventual successor, Dr. Frances Degen Horowitz. On the other hand, several papers that logically belong to the Proshansky collection had been incorporated into the Horowitz files; they have now been restored to the former. But there is evidently some overlap and, possibly, some duplication.

Many papers appear to be missing, such as letters to which Proshansky replied, his replies to letters received, replies to letters he sent, attachments or enclosures cited in the letters, and the like. Some of these may have been transferred to other people to handle; others may have been discarded in the course of weeding the files or packing them up and moving them.

Articles, Speeches and Other Writings

The full texts of articles, speeches and other writings are filed chronologically in three loose-leaf binders, 1957-1973, 1974-1979, and 1980-1990. Drafts, revisions, unpublished research reports, and all accompanying correspondence are filed not here but in Correspondence—Subjects, under the appropriate headings, usually with copies of the final texts. However, for a few articles or speeches there may be neither a copy nor even any reference under the subject. Also, there is no certainty that this compilation comprises absolutely all the writings of Proshansky's prolific career.

Reprints and extra copies, if available, are filed with the originals in these binders.

The last item is the autobiographical "intellectual history" written shortly before his death for inclusion in a collection of such articles.

Correspondence—Names

Note: Material is filed here only if there is no identifiable subject or if the named person is the subject. Otherwise, papers by or about specific persons are filed in Correspondence—Subjects under relevant headings denoting their fields of activity or the organizations to which they belonged. There are no cross-references from here or other indicators to that effect. This is mostly an alphabetical listing of names, with folders containing a few papers such as personal letters, memoranda about appointments, and the like. If there is any material of unusual interest, this may be described in brief notes following the names.

GSUC ARCHIVES V-B
Presidents' Files / Proshansky

Correspondence—Subjects

Note: The papers here span the period from the early 1970s to Proshansky's death in December 1990 and its aftermath. They cover not only the operation of the GSUC and his role in it, but also his extensive activities in education generally, in the field of psychology as a whole, and in his specialty, environmental psychology, in particular.

As far as possible, folder titles are consistent with those used in other record groups. Usually, titles are in the normal word order, i.e., not inverted (e.g., American Psychological Association, not Psychological Association, American). There are no cross-references from personal names, but cross-references from synonyms and related terms are used extensively. Folders and the papers they contain are usually filed in reverse chronological order, i.e., with the latest in front.

Academic Planning. See Long-Range Policy and Planning. Programs (General). Restructuring Proposals

Academic Review Committee (2 folders) 1972-1990

Agendas and minutes, with supporting documents and related correspondence concerning the proposed appointments, promotions, leaves, etc. of individual faculty members or applicants

GSUC ARCHIVES V-B
Presidents' Files/Proshansky

Personal Materials

Note: This subgroup comprises materials pertaining to the personal, more private side of Proshansky's life, although the dividing line between "personal" and "professional" is often blurred. (For example, if a vacation is combined with business travel, documents about it are filed not here but wherever the business aspect is filed.) Many items were given to his widow upon his death; hence the paucity of photos, of papers about his wife, children and other family members, and of records of honorary degrees and other awards.

Appointment Books 1977-1989

Annual ring binders with a day-by-day record of appointments. There are 2 books for 1987 but none for 1988. Most entries are in pencil; many are smudged or faded. Notes clipped to the pages or loosely inserted have been retained.

Articles, Speeches, and Other Writings

Only catalog cards, alphabetized by title, and typed and handwritten lists are filed here. Some are annotated. The lists are incomplete and undated, and there is much duplication. For the works themselves, correspondence about them, and related materials, see the relevant folders in "Correspondence—Subjects." The texts of the works – so far as they are available – are filed (in chronological order) in the 3 loose-leaf binders, "Articles, Speeches and Other Writings" before "Correspondence—Names."

Automobiles 1976, 1978, 1980-1984, 1986-1990

Letters about poor AAA road service and a repair bill; rules for personal use of vehicles provided by the employer; drivers license application; letter about charge for a rental car; bills for garage, maintenance and repairs; letters about insurance

Awards and Honors 1973, 1988, 1990

Letter notifying him that he will get a Meritorious Service Award from the American Association of State Colleges and Universities; his letter thanking Frank Stanton for creating a chair in his name; Edmund Volpe's letter proposing him for a Certificate of Appreciation from the Association of Colleges and Universities of the State of New York (1990); letter about Proshansky's request that his candidate file for an American Psychological Association award be made inactive (1988); papers about his getting an award from the Mayor's Office for Veteran's Action (1973)
