Sale of NYU Bronx Campus to BCC Awaits Only Settlement of Price

The University Heights campus of New York University will officially belong to Bronx Community College as soon as the two appraisers, one from the City University and the other representing NYU, reach an agreement concerning the sale price. Each appraiser will arrive at a price for the 47-acre grounds and the 44 buildings, and an adjustment between their respective conclusions will result in the closing of the sale.

The negotiation represents the climax of a long period of self-examination by New York University to determine the source of its current budgetary problems. In a 1971 study the school was advised to use its Bronx campus and to reduce the size of its staff and the scope of its educational offerings. NYU will therefore move 2,145 liberal arts students currently at University College and its Washington Square College to the 2,700 students and faculty of the College of Engineering. The College of Engineering will be relocated at the Polytechnic Institute of Brooklyn.

BCC Benefits

BCC had been in the process of constructing a new campus to replace its series of widely dispersed buildings. The transfer of the NYU Heights campus would represent a considerable monetary savings to the City University of New York. It is generally considered that payment for the campus will run between $80 million and $100 million. Even the larger figure, however, would represent a savings over the construction of an entirely new campus, which was previously planned. Cost for the platform alone to support the building over the

My Love Song

My love song, 
will be a black love song 
full of memories, 
rich with spices 
of ebony faces 
staring out with eyes 
bloodshot with fever; 
Fever of black momma’s pain 
rising from her gut 
saving her black son (child) 
for blacker days. 
Black momma’s 
pain, misery and sacrifice 
were not made 
for whitewashed todays. 
Momma pained 
so her black son 
could sing 
black songs, 
and write black poems, 
of black love, 
to black queens.

BCC Day Care Center

For Students' Children Opens At Poe Center

By ROBERT A. DELENA

The Day Care Center will open its doors to the children of BCC students within the next two weeks.

According to Mrs. Henrietta Whitcomb, College Discovery Social Worker and co-organizer of the project with Prof. Myron Kalin, the idea originated in Innovation Center meeting when it was realized that "there was a strong need for such a project in this school."

A $20,000 grant from BCC, along with receipts from last year's student benefits (dance concerts, etc.), and some private donations provided the initial capital. The operating costs for this year will be financed by the New York Department of Day Care Services.

The Day Care Center will be located in the Poe Center in the faculty lounge. It will be open to children from 7 a.m. to 6 p.m. Monday through Friday. The use of the lounge was made possible because "last year the faculty signed a petition to give up the use of the lounge and donate the space to the benefit of the students," Mrs. Whitcomb.

To care for the children, a staff of professionals in early childhood education and some student aides have already been hired. The parents will also be involved in caring for their own children and other children in need of some of their time.

To qualify for the program, the parent must attend BCC Part-time classes. The children must be between the ages of three and six. Also, the income of the parent must fall into a certain bracket which may be ascertained by consulting Mrs. Whitcomb at 8812.

Plans for further expansion of the Day Care facilities will be considered after the move to the new NYU campus and the building of the center is finished.

ABOUT THE MODERN DANCE CLUB

The Modern Dance Club of Bronx Community College was organized in September, 1967 under the direction of Prof. Charlotte Honda. It is co-sponsored by the College's Student Activities Inter-Organization Council and Department of Health and Physical Education.

The Co-educational club provides an opportunity for interested students to explore the wide range of movement possibilities inherent in dance, as well as, develop strength, flexibility, agility and endurance. The club also provides an outlet for the creative exploration of movement which results in choreographed dances, expressing and communicating ideas. Membership is open to all metric and non-metric students of the college.

Administration
To the Class of 1973:

Greetings and warmest congratulations to each of you on having reached another milestone in your educational career. Your achievement is a tribute to your intellectual competence, your seriousness of purpose, and your determination to succeed.

These attributes will stand you in good stead in the years to come. We are living in a society that is increasingly more complex, a society that offers tremendous opportunities for service and self-fulfillment to those who are prepared and who have the drive and the determination to see things through. Your success at Bronx Community College indicates that you are well motivated to take advantage of the opportunities that await you.

Some of you will go on to further formal education; others will immediately enter the world of work and contribute their expertise to the professions and to government, business, and industry. But let me add a word of caution. No matter what field you will enter now or later, all of you must be prepared to continue to learn for the rest of your lives.

In a rapidly changing society, lifelong learning is an absolute necessity. I am confident that your education here has enabled you to face this challenge. You can't keep up with all there is to know, but you now have a solid foundation on which you can build selectively.

We wish you success and much happiness in your future endeavors. Our warm wishes, our hopes, and our prayers go with you.

Sincerely yours,

James A. Colston
