THREE HEALTH SCIENCES CURRICULA
RECEIVE STATE UNIVERSITY APPROVAL

Dr. Nasry Michelen, President of Hostos Community College, announced today that three Associate degree curricula at the College were approved by the State University of New York Board of Trustees at a meeting held on December 16, 1970.

The curricula approved include Dental Hygiene, Nursing, and X-Ray Technology, all of which lead to the Associate in Applied Science degree.

President Michelen was informed of the curricula's approval by S.V. Martorana, Vice-Chancellor for Two-Year Colleges of the State University of New York, in a letter dated December 23, 1970.

Hostos Community College, the eighth community college of the City University of New York, started classes for the first time in September 1970. The College's career programs specialize in the health sciences. Hostos offers a unique, systematized educational approach that provides individualized instruction for its students, permitting them to learn at their own pace.
