## **A. Course description**

This in-person course provides an in-depth exploration of the archival principles of Appraisal, Arrangement, and Access. The key principles of this course represent the hierarchy of archival practice: access to archives is dependent on the description of archives, which in turn is dependent on the arrangement of archives. Archival appraisal represents the archivist's foundational intervention into the process of records management and disposition. The nature of the archival record is shaped by these processes, and by extension, our relationship with history and the past. We will look closely at this process of shaping the archival record that takes place in the archive.

Within a practical and theoretical framework students will consider how recent advances in technology provide opportunities for more dynamic and interactive tools for archival access. Key concepts covered will include: the construction of archival finding aids, including content standards; the emergence of digital archives, including open-source software and metadata schemes; and modes of digital description, access, and repository management.

## **B. Course Learning Goals & GSLIS Program Objectives**

### **Course objectives**

The goals of the course are to:

1. Provide students with a basic knowledge and understanding of archival practice.
2. Provide students with opportunities to work through the stages of archival processing.
3. Engage students in current issues in discourse related to archival practice.

Student Learning Outcomes	Assignments	Student Learning Objectives (text appears on next page)						
		A	B	C	D	E	F	G
1. Gain hands-on experience appraising and arranging materials, and familiarity with digital archival technologies, as well as address hypothetical “real-world” scenarios re: archival management	<b>Practicum and deliverables</b>	x	x	x			x	
2. Become familiar with key professional best practices	<b>Finding aid analysis</b>		x					x
3. Conduct a survey on a topic related to contemporary archival practice	<b>Editorial</b>				x	x		
4. Present experience in an engaging and professional manner to colleagues	<b>Presentation</b>				x	x		

**Legend: GSLIS Program Objectives Stated as Student Learning Outcomes:**

- A. Enable access to information and knowledge, including its creation, acquisition, organization and management, storage and retrieval
- B. Articulate the role and importance of ethics, values, lifelong learning and advocacy underlying the practice of the information professions
- C. Apply appropriate standards, policies, tools and practices in various specializations of information science, as articulated by representative professional organizations
- D. Design and conduct research studies, critically assess research claims, and synthesize and

disseminate findings

- E. Advocate for social justice, particularly in our metropolitan community, by understanding the needs, designing programs with, and amplifying the strengths of our underserved groups
- F. Identify, evaluate and implement current and emerging technologies to create, store, and present information in a way such that users can access it, process it, and experience it
- G. Explain and apply principles of effective management and leadership in the library and related information institutions in a rapidly changing society

## C. Books and technology

The course website is: [LBSCI730.commons.gc.cuny.edu](https://LBSCI730.commons.gc.cuny.edu). Please [register for a CUNY Academic Commons account](#) before our first meeting and follow the class page. More information about [taking a course on the Commons](#) can be found on the Help section of the Commons website.

This class follows a Zero-Cost Textbook model that will use various Open Educational Resources and/or library materials. You will not need to purchase a textbook for this class.

That means that all materials will be available one of the following ways:

- Linked directly from [course website](#)
- Sourced through [QC Library](#) resources like databases and journals
- Password-protected [E-reserves](#)

We will be utilizing the annotation tool [Hypothes.is](#), which works as a Chrome extension or a bookmarklet, depending on your browser. Instruction on how to download and use the tool will happen in our first class session.

Please use the [Hypothes.is group invitation link](#) to access highlights, notes, and discussions on the semester's readings.

You will be submitting all assignments through Dropbox, directly on the course website. I prefer PDFs, but will accept Word documents. Please use the following file name convention when naming files:

## E. Assignments, due dates, and grading plan

### GRADING PLAN & ASSIGNMENTS

The final grade for this course will be determined as follows:

Practicum	40%
Annotations	15%

Finding aid analysis	10%
Final project	15%
Presentation	5%
Class participation	15%

## Practicum

5 hands-on exercises/deliverables in appraising and arranging materials, describing archival collections, and developing familiarity with digital archival technologies, as well as addressing hypothetical “real-world” scenarios re: archival management.

**Each deliverable REQUIRES a 200-500 word reflection in addition to specific requirements. If you do not include a reflection you will not receive full points.**

DUE: throughout, see COURSE SCHEDULE

1. Appraisal report: 9/28
2. Arrangement schema: 10/19
3. DACS description elements: 10/26
4. Digital access record: 11/9
5. Reference request: 11/16
6. Extra credit: social media post (2 points): 12/17

## Annotations

Using the annotation tool [Hypothes.is](#), you will engage with the required readings listed in the course schedule. You are required to contribute at least one comment (CONNECT, SUMMARIZE, or QUESTION) and at least one reply on each week’s required reading for full points.

The tool works as a Chrome extension or a bookmarklet, depending on your browser. The start guide is linked above, but instruction on how to download and use the tool will happen in our first class session.

Please use the [Hypothes.is group invitation link](#) to access highlights, notes, and discussions on the semester’s readings.

DUE: Before class assigned

## Finding Aid Analysis

3-6 pp paper that analyzes and critiques two to three finding aids you locate online from different repositories, measuring them against professional standards. Cite the weekly readings as part of your analysis and critique.

DUE: 11/2

## Final project

Creative or practical application project (further instructions to come). Project must be approved by the instructor.

TOPIC DUE: 11/9

PROJECT DUE: 12/17

## Presentation

No shorter than 5 minutes and no longer than 10 minutes. Present on your final project.

DUE: 12/7

## Class participation

This class is in-person for a reason! Participation in discussions and in-class exercises is *essential*. Attendance, active engagement with the readings and contributions to the class are mandatory in order to receive a passing grade.

# F. Additional Information

## CUNY POLICY ON ACADEMIC INTEGRITY

The Policy on Academic Integrity, as adopted by the Board is available to all candidates. Academic Dishonesty is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension, and expulsion. This policy and others related to candidates' issues are available to you at:

<http://www.qc.cuny.edu/StudentLife/services/studev/Documents/Academic%20Integrity%20Violation%20Form%20RV.pdf>.

## USE OF CANDIDATE WORK

All programs in New York State undergo periodic reviews by accreditation agencies. For these purposes, samples of candidates' work are made available to those professionals conducting the review. Candidate anonymity is assured under these circumstances. If you do not wish to have your work made available for these purposes, please let the professor know before the start of the second class. Your cooperation is greatly appreciated.

## REASONABLE ACCOMMODATIONS FOR CANDIDATES WITH DISABILITIES

Candidates with disabilities needing academic accommodation should: 1) register with and provide documentation to the Special Services Office, Kiely 171; 2) bring a letter to me indicating the need for accommodation and what type. This should be done during the first week of class. For more information about services available to Queens College candidates, contact: Special Service Office; 171 Kiely Hall; 718-997-5870 (8:00 a.m. to 5:00 p.m.).

## Attendance

Students are expected to attend every class and notify their professor by phone or email when they will not be or have not been there. Missing three classes or more will result in a failing grade, or with legitimate reasons, assignment of a grade of “incomplete.” Missing a scheduled guest speaker will count as two absences.

Your health and your family’s health should be your priority. If you are dealing with illness, sick family members, quarantine or isolation, a bad internet connection, increased anxiety, childcare challenges, or any other issues, please reach out and we will figure out accommodations. If some aspect of this class is not working for you, we will work together to find a solution.

## Participation

Students are expected to show knowledge of the topics under discussion by sharing facts and insights from the class readings and/or personal experiences verbally in class and online through such vehicles as the Discussion Board on Blackboard, as requested. They are expected to ask questions, make comments, etc. Sitting in silence class after class is actively discouraged and will result in a low class participation grade.

## COVID-19 Guidelines

**In accordance with New York State and CUNY mandates, students attending in-person or hybrid classes must be fully vaccinated and submit proof of vaccination into CUNYfirst unless they have been issued an exemption by CUNY (CUNY Vaccine Exemption Form). Medical exceptions and religious exemptions must be submitted 30 days before the start of classes. All religious exemption decisions are final and not subject to appeal. Email [studentreligiousexemption@cuny.edu](mailto:studentreligiousexemption@cuny.edu) if you have questions. Learn more here: <https://www.qc.cuny.edu/covid/>.**

**Face masks are not required at this time. That being said, I will wear a mask during every class and any office hours. With new variants circulating, Queens College encourages everyone—faculty, staff, students, and invited guests—to continue voluntary use of face masks, especially indoors. CUNY encourages the small number of students, faculty and staff that are still not vaccinated, and those who have been or will be granted a medical exemption or religious exception, to wear a mask.**

It is possible that the course calendar or other aspects of the course may be adjusted due to COVID-19 and other contingencies at QC. Any changes will be posted to Blackboard in addition to emailed, so you should be sure to check your announcements and messages frequently.

## Courtesy

Please turn off cell phones, pagers, and any other personal communication devices before class. Students found browsing or texting during class will be penalized. If you arrive late or have to leave early, be unobtrusive in doing so. Be patient with fellow students who may not understand something as quickly as you do and ask questions if you are confused.

## Late Assignments and Incomplete Grades

Assignments are due BEFORE or at the beginning of class on the due date. If you are going to be absent or late to class, you must make arrangements with the instructor for the paper to be delivered in time. Late assignments and papers will be given a lesser grade based on the assumption that by submitting an assignment after others, the student gains certain advantages. This same rule will apply to requests for an “incomplete” semester grade. Please note that incompletes are given at the discretion of the professor. They are not automatically assigned.

## Writing

All papers submitted should be in Times New Roman, 12 point font with one inch margins, a cover sheet, and a reference list. Papers should be written in competent, grammatically correct American English, using the *Publication Manual of the American Psychological Association* style for organization, content, and citation format. Papers that do not meet these criteria will not be graded. Students should keep copies of all assignments submitted until they have been graded. Your instructor will discuss in class how to submit each paper.

## Plagiarism

Copying the work of another author regardless of source, or the work of another student, is automatically grounds for failing the course. Using all or part of your own paper in multiple classes without prior permission is considered a form of plagiarism. This also includes asking people on professional Internet lists or working as professionals in the field to do your work for you.

## Course Evaluations

Towards the end of the semester, access to online course evaluation will be enabled. Please remember to participate in the college online course evaluations. Your comments are highly valued, and these evaluations are an important service to fellow students and to the institution. Please also note that all responses are completely anonymous; no identifying information is retained once the evaluation has been submitted.
