HONORABLE FIORELLO H. LAGUARDIA,  
MAYOR OF THE CITY OF NEW YORK.  

Dear Mayor LaGuardia:  

I understand that President Roosevelt has set September 12th as the last day on which applications for Public Works will be received.  

The Board of Higher Education has an application for additional buildings for Brooklyn College on file at the Budget Director's office. This application is accompanied by architect's drawings and estimates and includes an Auditorium Building, Stadium, additions to the Library and additional equipment. All of these are most urgently needed to complete the comprehensive scheme of Brooklyn College. The approximate cost would be $2,500,000.  

The Board of Higher Education also has filed, at the Budget Director's office, plans and specifications for additional buildings which could be erected at an approximate cost of $1,000,000. These buildings include an Administration Building, a Social Hall and additional class-rooms and laboratories.  

May I respectfully urge that application for a supplementary sum of $2,500,000, or $3,500,000, be made so that the Brooklyn College project may be fully housed and ready for operation in the fall of 1936.  

I would like to take this occasion to report to you that bids will be opened on the Gymnasium and Heating Plant of Brooklyn College on September 4th. Plans and specifications on the Academic Building and Science Building are now completed. The plans and specifications for the Library Building will be finished within two weeks. We will advertise for bids on these buildings shortly.  

Yours respectfully,  

/s/ Mark Eisner, Chairman  

Board of Higher Education.
