1. Welcome - J. Prince

Dr. Prince welcomed both former and newly-elected members of the Senate, to the first meeting of the 1980/81 academic year. He noted that the major work ahead was two-fold; the continued development of a revised governance plan and 2) discussion of the Task Force Report on Goals and Objectives of the College. Dr. Prince stated that an added area of concern might be an examination of whether or not the College is realizing its current aims.

2. Reports From Senate Committees

a) Curriculum - J. Ryan

Dr. Ryan announced that there is a need for student elections of representatives to the Curriculum Committee

b) Academic Standing

The first meeting of the Committee will be on Wednesday, September 24 from 2:00 - 4:00 p.m. in South Hall Conference Room and will continue to meet on alternate Wednesdays thereafter.

c) Committee on Instruction

The Committee will begin meeting on Tuesday, September 23, from 3:00 - 5:00 p.m. in Tech Two - 605, and will continue to meet on alternative Tuesdays thereafter.

d) Committee on Governance - H. Tyson

Professor Tyson reported that the Committee will set up a timetable for hearings and business meetings. Last Spring, a meeting was held with the President, at which Dr. Brown submitted revised recommendations and offered two models (Queensborough and La Guardia) for review.

A summary of the discussion will be presented at a later Senate meeting. Members of the Committee are currently providing their individual comments on the content and structure of the plan.

e) Space and Facilities - S. Ehrenpreis

Professor Ehrenpreis reported that the Committee met. Space for student clubs is available but too limited to be designated exclusively for club use. Current construction related to the college's energy plant will probably cause some problems and inconvenience for the next year or two.

It was urged that restrictive parking regulations be observed. Professor Ehrenpreis commented on the improved telephone service that resulted from installation of a Centrex System.
