Prof. Charlotte Morgan  
Brooklyn College

Dear Professor Morgan:

I have been wondering whether the partially inconclusive result of our discussion of your sub-committee report yesterday might be resolved more satisfactorily if you, Miss Robinton, Mr. Barnard, and I could get together over the lunch table, perhaps tomorrow. I am sending a copy of this to each of the other two. If you would let the Biology secretary, Miss Schlosser, know some time today, about tomorrow, or Monday - I recall that Mr. Barnard has ~~not~~ classes tomorrow, we could figure more exactly and communicate by telephone. I suggest Paul's, 12.30, Monday, if that is feasible for the engagements of the rest. I happen not to have a lab. period Friday or Monday afternoons. In our Committee we have been able to reach real agreement on practically everything and I see no reason why we may not on this.

Sincerely,

R. C. Benedict
