

BROOKLYN COLLEGE
RECEIVED
JAN 6 1941
OFFICE OF THE PRESIDENT

WORK CAMPS FOR AMERICA
8 West 40 St.
N.Y.C.

January 2, 1941

F

Dear Work Camper:

If you were at the reunion you have seen your friends and enjoyed the cider and renewed your contact with the work camp movement. If you could not come, you can make up for it by coming to a work camp again next year.

* * * * *

As the chronic crises of these years unfolds, the one point upon which all can agree is that the established order is dying. Europe and America and Asia are in a fluid state.

The Work Camp Movement represents a small but growing effort to enlist democratic minded youth in constructive service toward a better order through aid to cooperatives, labor schools, settlement houses, etc. The work camps are limited to the summer but the spirit of service to democracy developed in these camps should continue to motivate our members throughout the winter.

The finest product of the work camp movement would be the demonstration of a genuine concern for community welfare through specific service performed by work campers. You will find opportunities in settlement houses, labor education, cooperatives, civil liberties groups, etc. for an expression of this willingness to serve.
