Required texts – readings will be posted on Blackboard. You are responsible for printing them and bringing them to class. You are welcome to read them in a digital format as well but will need to be able to refer to specific parts of the text while we discuss them. If you cannot print let me know in advance and I will print them for you. I will not be able to print on the day of the class so I suggest you talk to me early in the semester if this is a problem. I might add additional readings to this syllabus as we go so please check Blackboard before each class.  

Course Description  
We live in an exciting and diverse world whose dynamics are sometimes hard to follow. It is easy to get stuck in one’s own worldview and remain there. In order to discover the other world views it is important to learn about alternative histories, points of view and traditions. Women’s/Gender Roles in Contemporary Society is an introduction to issues that arise when women's lives and gender roles become the focus of critical inquiry. How do different societies and academic disciplines define women? How do women's experiences vary in relation to factors such as race, ethnicity, class, sexuality, age and nationality? How have women resisted, adapted to, and transformed "women's space" in the United States and elsewhere? Active participation is a crucial element of this class and creative expression is highly encouraged. You are allowed 4 absences. More than four absences will affect your grade.  

Attendance  
Attendance for the class is mandatory. Many graded assignments will be given based on what happens in class and won’t be able to complete if you were not there. Look at assignment descriptions for details.
