A discussion ensued on the recommendation of the Nursing Department that -

"Effective Spring semester, 1984, priority for admission into Nursing will be given to incoming students who meet a twelfth grade reading level requirement"

Professor Joyce Patterson clarified the effects of this recommendation as follows:

a) Students could increase their reading level by taking RDL 11, after RDL 02 or by any other means.

- b) Students enrolled in pre-nursing who did not achieve a 12th grade reading level would not necessarily be excluded from the nursing program but they could lose out to new students who meet the reading requirement.

Further clarification will be presented at the next Senate meeting.
