President Roosevelt's speech two weeks ago was the first big step the American ruling class has taken to line up the American workers for the next imperialist war—the second edition of 1914–1918 may break out very soon.

The smiling FDR expresses "horror" at the aggression of the "yellow peril." This representative of American finance capital heads a government which in the name of Guggenheim, National City Bank, and the United Fruit is brutally exploiting and oppressing the people of Central America, the Philippine Islands, Haiti, Cuba, Puerto Rico and South America.

We do not need to be told that the Japanese acts in China are dictated by her imperialist interests. President Roosevelt's address is likewise dictated by Wall Street. You see the hungry robber Japan might take away the holdings of the satisfied robbers, Britain, France (who control the imperialist League of Nations) and the U.S.

We defend the rights of the Chinese masses against Japanese imperialism, but we defend it by strikes, boycotts and arms sent to the Chinese trade unions—not by the imperialist action of the US government and the League of Imperialist Bandits.

WHO IS BACKING FDR?
1) Nicholas Murray Butler—reactionary—remember Bob Burke.
2) Harry Stimson—banker, diplomat, statesman.
3) NY Times -- organ of Wall St.
4) "American Rearmament"
5) The Communist Party—the mouthpiece of Stalinist diplomacy.

"A strong wave of opinion that President Roosevelt's speech in Chicago on the disturbed conditions of the world represented a 'warming up' to an approaching extensive national rearmament program swept the financial district yesterday..."

We defend the Chinese masses against Japanese imperialism, but the CP thereby sabotages the defense of the USSR, since only a workers America can really defend the USSR.

SUPPORT THE CUBA PLEDGE: "We refuse to support any war the US government may undertake."

INDEPENDENT ACTION —— strikes, boycotts against Japan.

OUR MAIN ENEMY IS AT HOME: AMERICAN CAPITALISM!

THE FIGHT AGAINST US CAPITALISM AND FOR SOCIALISM IS THE FIGHT AGAINST WAR AND FOR THE DEFENSE OF THE USSR.
