Dear Will,

A concatenation of events prevented my witnessing the ceremony by which you were formally installed in your high office - Caroline's graduation from Smith, the sailing of Katherine and Caroline for Europe and the packing of all our household goods and gods in preparation for moving have been crowded into the last three days - I survive in a much depleted and depleted condition -

I can not let the occasion pass without expressing the sincere wish that you may have a maximum of blessings within and without your office -

Sincerely,
Rufus A. Vance
