2. Ms. Hassell, with the permission of the Senate, presented President Brown who discussed the current components of the College's Title III Program, as well as those projected for the program's second year. The basic purpose of the program is to plan and implement changes which will make the institution responsive to the needs of the 1990's and the 21st century. Preliminary evaluation of the Title III Program by the Center for the Advanced Study of Education (CASE) have been positive.

President Brown said the Title III is a well focussed project with a wide involvement of faculty which should enable us to graduate more students.

President Brown, addressing Miss Hassell, requested that she convey the message to our students that BCC has something to offer, and also suggested to all present that they "spread the word".
