OneSearch updates –

- The Public Services Committee agreed that SFX tab labels (currently split between “More Options” or “Find Items”, depending on the item type and availability), should be renamed to a single label. That label will be “More Options” for now, but may be revisited.
- As this will affect how users find ILL services, the ILL Roundtable members will look at local instances of OneSearch, think about local needs, speak to other librarians at each respective school, and send suggestions as to what the labeling would work best. Once the suggestions are gathered, the co-chairs will send out a poll with options, as possible from the suggestions, to see whether we can formulate a recommendation.
- The following are some of the suggestions that already came up, during the meeting:

For the “Request” tab for CLICS title requests:

- Request within CUNY (for the current “Request” tab...presumably, paired with Request from outside of CUNY or any other option)
- CUNY Options

The rest are presumably for the “More Options”/ “Find Item” tabs, or

- Interlibrary Loan
- Find Item Elsewhere
- Request Item
- Other Library Options

Delinking records in ILLiad –

- GC worked with OCLC to delink old transactions from user requests to clear up patron records and history. The following are some possible operations:
 - Delinking – break the relationship between the users and the transactions.
 - Deleting old transactions – delete complete item older than a specific amount of time.
 - Deleting old user names by removing records that had no transactions attached

- The most important task was marketing and notifying patrons. Mass and Individual emails were sent informing patrons on how to save their user history. Blog posts were published, and notices were placed on the ILL webpage.
- Sample blogposts: the first post and the second post. We also sent a mass email with similar content.
- Guardian article: <http://www.theguardian.com/us-news/2016/jan/13/us-library-records-purged-data-privacy>.

Occam's Reader – A system that allows interlibrary loan of electronic books (e-books).

- The cost is \$500 per year with a 10% discount for consortiums between 10 – 19 institutions; 20% discount for 20+ institutions.
- You must look at your license to determine if you are allowed to lend e-books via ILL.
- Currently Springer & JStor are vendors who allow ILL e-book lending.
- Arizona State University has a LibGuide on Occam's Reader: <http://libguides.asu.edu/ill/occams>
- Perhaps we can reach out to OLS for further consideration, and to Occam's Reader for a webcast.

CUNY librarians to Cuba –

- A group of librarians across CUNY visited Cuba from January 15 – 22, 2016.
- A number of libraries were visited including the National Library.
