This Meeting Minutes is brought to you for free and open access by the Library Association of the City University of New York at CUNY Academic Works. It has been accepted for inclusion in Meeting Minutes by an authorized administrator of CUNY Academic Works. For more information, please contact AcademicWorks@cuny.edu.

LACUNY-ILL ROUNDTABLE

Spring 2019 meeting

MEETING MINUTES

Date and Time: May 7, 2pm-4pm

Location: The Graduate Center, Library C196.05

Attendees: Evelyn Bodden (CC); Trevar Riley-Reid (CC); Gowan Campbell (HC); Silvia Cho (GC); Beth Posner (GC); Gene Laper (LC); Stephen Walker (LC); Kel Karpinski (NYCCT); Sherry Warman (BC); Charlotte Jackson (BC); Neera Mohess (QCC); Clementine Lewis (LG)

ILLiad: It appears that ILLiad will continue to be offered and developed. At the OCLC conference, it was confirmed that there are end-of-life plans for ILLiad currently.

ILLiad 9.0: this update was discussed. One major feature is the enhancement of security, which means that users who have ILLiad logins (user-created), as well as staff, will be prompted to change their password. Full details on the ILLiad 9.0 update can be found here: <https://support.atlas-sys.com/hc/en-us/articles/360011811474-ILLiad-9-0-Release-Notes>.

ILLiad 9.1 and beyond: ILLiad 9.1 will be available this August, and it will include new, fully accessible and responsive webpages, better RAPID integration, and authentication enhancement for LDAP and other directory-based login methods that will reduce the need to re-enter information into registration forms. It will also feature a decision support pipeline for better workflow management. Atlas Systems has made ILLiad's future roadmap available here: <https://www.atlas-sys.com/illiad-roadmap>.

ILLiad ideas/uservoice: There is now a place where we can submit and vote on ideas for improving ILLiad: <https://uservoice.atlas-sys.com/forums/581665-illiad-ideas>.

OCLC conference: Presentations and slides are now available at <https://www.oclc.org/en/events/conferences/resource-sharing-conference/2019/agenda.html>.

SerSol MARC service discontinuation: CUNY Central announced this recently. It is worth paying attention to, particularly if there are any effects on the currency of our Worldcat holdings—which are important for lending.

CUNY authentication/single sign-on: this is also a topic that may be coming up in the future. Most libraries at CUNY are using ILLiad authentication currently (*i.e.* users create their own accounts), with a few using LDAP.

New Co-Chair: Silvia Cho announced she will be stepping down as co-chair, and asked attendees to consider volunteering.

RRS Innovation Award: The Rethinking Resource Sharing Initiative is asking for nominations for its Innovation Award. The RRS Innovation Award honors an individual, group or institution for introducing

changes that improved users' access to information through resource sharing (<https://rethinkingresourcesharing.org/innovation-award/>). The deadline is May 24.

Project ReSHARE: this is an effort to develop an alternative resource sharing system to Tipasa. It was started when the future of ILLiad seemed more precarious, but it will be interesting to see how it grows. <https://projectreshare.org/>

Upcoming events: IDS members can attend a hands-on regional user group meeting that will focus on Alma. It will take place on Thursday, May 23rd at Hunter College: <https://idsproject.org/metrousergroup.aspx>. The IDS conference, on the other hand, is open to all. It will take place July 25-26 at Utica College, Utica, NY: <https://idsproject.org/conferences.aspx>.
