Sci 12600 – Principles of Environmental Science - Spring 2022

Instructor: Stephanie Rose

Assignment – Evolution and Adaptations:

- Choose an organism to explore.
 - Where does this organism live?
 - How does the organism meet its needs in its environment?
 - What are all the ways that energy is being transferred in the organism's life? (eating, excreting, regulating temperature, etc.)
 - How is energy being transferred in the ecosystem the organism lives in?
