For Vogrin, creative writing is a way of life

Aldemaro Romero Jr.
CUNY Bernard M Baruch College

Recommended Citation
Every time we get caught up in a great novel, or when we watch an engaging television show, do we ever stop to appreciate the talent of the creative writers? But to those who have had the chance to write, being a writer may not have the same raw talent and imagination, but tons of perseverance and work. For Vogrin, an associate professor in the Department of English language and Literature at Washington State University and a member of the University of Delaware's creative writing program, she explains that there are online journals, books being published electronically and other new paradigms: Do we ever stop to appreciate the talent of the creative writers? But to those who have had the chance to write, being a writer may not have the same raw talent and imagination, but tons of perseverance and work.
