When people hear about Tanzania, the first image that often comes to mind is the animated cartoon character "Timon" from the Disney movie "The Lion King." The cartoon may be a human invention, but the animal is very real. In fact, there are thousands of species of mammals, birds, reptiles, and amphibians that are unique to Tanzania. The country is home to the Great Migration, one of the most fascinating natural events on Earth. However, as the climate changes, the impact on these species and their habitats is becoming more apparent.

In just one month's time we had poured in more than 200 man hours of our department along with other community groups and volunteers. The difficulty that we encountered was that the system crashed for six weeks despite our best efforts. "The system will be back online in the near future," said Welle. "It is our duty as scientists to find the best possible science to take on all the problems that we are facing." Then, of course, you have to have the political support to actually do it.

"I think it is our duty as scientists to find the best possible science to take on all the problems that we are facing." Then, of course, you have to have the political support to actually do it.

"He ranks as Edwardsville's longest serving mayor with his five-term run and has been considered in many respects to be one of the most effective leaders in the city's history." Dennis DeToye's decision not to seek re-election. Before he became mayor he spent eight years on the city council. With even his decision not to run for re-election, Niebur said he will continue to be active in the community.

"My desire to have a positive impact in this community has remained strong," Niebur said. "Even after my term as mayor ends, I plan to continue beyond my tenure as mayor. I am extremely proud to have played a role in the success of this third community. I will continue to work with the mayor of my city in 2013, my close friends and passionate supporters to keep our community growing and active in the community."

Next week's newsletter, five candidates have picked up petitions. The resolution received unanimous approval. The next city council meeting is scheduled for Thursday, Dec. 27.

Alderman Romero is the Dean of the College of Arts and Sciences at Southern Illinois University Edwardsville. The college's mission is to provide a comprehensive and high-quality education to students. The college offers a wide range of undergraduate and graduate programs, and is dedicated to fostering critical thinking and problem-solving skills in its students.

"We're looking forward to working with the city council and to help restore buildings to the pre-European settlement condition or pre-1913 condition. The intent of the facade program was to help restore buildings to the pre-1913 condition and to help in the restoration of the city's historic facade. The city of Edwardsville will most certainly motivate me to remain active in the community."
