When 75 students attended the camp, over 100 students were actually registered for the camp last year. Dr. Eric Voss with one of his laboratory tools, an Atomic Force Microscope. 

“Students are hearing from previous G.O. Teams how much fun it is to plan their own project and monitor their results. In the classroom, many students are not sure what kind of work they want to pursue in the future. By coming to camp, they can do hands-on laboratory work that will help them decide on their future plans.”
