Dr. Ryan distributed his letter to Dean Polowczyk. The letter discussed ways to accomodate students in remediation in credit bearing courses.
4. Elections  
Simon Davis and Tom Cipullo were elected to the Standing Subcommittee on Course Evaluation.

5. Old Business

No old business was brought before the committee.

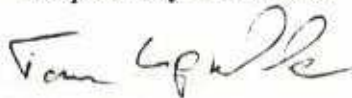

6. New Business

- A. It was proposed that course designator PEA 52 be changed to CPR 10. The matter was deemed routine and approved unanimously, viva voce (see page 5).
- B. It was proposed that the prerequisites and corequisites for PEA 51 be amended. Henceforth, there will be no prerequisite and ENG 01 or RDL 01 will serve as corequisite. The matter was deemed routine and approved unanimously, viva voce (see page 6).
- C. Changes to the existing Nuclear Medicine Technology curriculum were proposed in an attempt to give students credit for clinical work. The proposal would eliminate LAW 45, Medical Law, from the curriculum. Extra material would be added to NMT 86 and NMT 81 to cover the topic. No action was taken at this time.
- D. The issue of appropriate credit courses for students in remediation was raised. New TAP and HRA regulations will be certain to impact on our students in a dramatic way. Various strategies for assisting our students were raised. Courses with compensatory hours, greater linkage between 0 level and credit bearing courses, combining a limited number of English sections with ESL, and time-immersion strategies were all discussed. Chairperson Ryan formed the Ad Hoc Subcommittee on Strategies for Moving Students in Remediation into Credit-Bearing Courses. The subcommittee is charged with submitting specific proposals that can be implemented on an experimental basis in the Spring 1997 semester. The members of the subcommittee are B. Witlieb (Chairperson), N.S. Davis, A. Glasser, V. Jackson, M. Messaoudene, J. Suarez, J. Ryan (ex officio), C. Savage (liaison to Continuing Education). The charge is attached, pages 7-8.
