Hi Claudia, we are excited to hear that you would like to use the 10 Essential Public Health Services (EPHS) graphic in your dissertation. Because the 10 EPHS were developed by the public health field, permission is not required to reproduce the graphic – feel free to use it as you wish! We only ask that you include the suggested citation:

10 Essential Public Health Services Futures Initiative Task Force. 10 Essential Public Health Services. September 9, 2020. <https://phnci.org/uploads/resource-files/EPHS-English.pdf>

You can also visit our [10 EPHS toolkit](#) to download a high-quality image of the framework, as well as other materials that may be of interest.

Thank you and please let us know if you have additional questions or concerns!  
Travis

Subject: Fw: Request for permission

Dear Ms. Chudgar and Ms. Fisher,

I got your contact information from the National Center for STLT Public Health Infrastructure and Workforce. I am preparing to deposit my dissertation on the health impacts of restrictive immigration policy on immigrants at City University of New York. I wanted to ask for permission to use this graphic as an exhibit.

I currently have it cited in the following manner

Centers for Disease Control and Prevention. CDC - 10 Essential Public Health Services - CSTLTS. Published March 18, 2021. Accessed November 26, 2021. <https://www.cdc.gov/publichealthgateway/publichealthservices/essentialhealthservices.html>

Is this something that you would be able to grant me permission to use? Do you have a preferred citation that credits the Public Health National Center for Innovations (PHNCI)?

Thank you so much for your help!

Best,  
Claudia Calhoon
