Hi Dr. Birmaher,

I hope that you're well! I'm reaching out as I used your SCARED measure as part of my dissertation titled, Medication Management in Pediatric Chronic Illness: Should Patient Anxiety be Considered?

I cite your measure in text, but also included a copy of the measure in the appendix. Thus, I'm seeking your permission to include the SCARED in electronic form as part of my dissertation deposit (available online). If you'd prefer that I didn't include the full measure in the appendix I completely understand, just let me know.

If permission is granted, I would need this in the form of a copyright permission letter.

I look forward to hearing from you,

Claire Hoogendoorn
