The 1975/76 College Catalog does not include the latest Board of Higher Education changes in tuition and other college requirements, nor does it reflect KCC changes in credits, and/or courses, (added and/or dropped), Academic calendar, etc.

Where there are discrepancies in information between the catalog and the HANDBOOK, your 1976/77 STUDENT HANDBOOK will be the more accurate, as it includes the most up-to-date pertinent information. You will be responsible for the information there.

Your guide to most academic changes in the catalog is on the following pages. As very limited copies of this addenda have been printed, you should keep it for reference, course credit information, etc. You will need this information now, and may need it in the future.
