Yesterday is already a dream and tomorrow is only a vision...
INTRODUCTION

The yearbook staff was formed to give you, our fellow graduates and the first graduating class of LaGuardia, a book we hope will hold many years of good memories of your two years in the school.

We know the two years weren't easy ones, and that for many of us there were many unpleasantries and hardships, but we hope you will try to overlook these and come to realize that trying to get a new college community to hang together isn't as easy as many of us thought it would be. However, we did hang together and as the result this yearbook and LaGuardia's first graduating class.

We would like to give our thanks to the faculty who tried to make life bearable for us, and also we would like to wish you luck in your future years at LaGuardia.
TO THE 1973 COLLEGE GRADUATES:

I am inclined to be sparing with words of congratulations, advice, and challenge to this year's college graduates, for you hear more than enough of them at commencement time, and you are eager to turn from words to action.

From early childhood, for the most part, the classroom has been your world. Now the world becomes your classroom. The education you have gained so far is precious capital. As you invest it in the service of mankind, it will continue to grow and pay you rich dividends.

Your opportunities for service and achievement are wide. For the first time in your lifetime, the world is on the threshold of an era of lasting peace. The United States is astir with the forces of a profound renewal -- social, economic, political -- and reaching for new possibilities in its third century of independence.

The coming age will belong to you. America is grateful for what you are, and much in need of what you can become. I wish you Godspeed on the great adventure that lies ahead.

Richard Nixon
New Horizons is dedicated to the people who made it possible for us and most of all the 1973 Seniors.
Memorandum

To: ALL INTERNS

Date: SPRING 1973

Subject: ABSENTEEISM

From: Yearbook Staff

It has been brought to my attention that the attendance record of this department is a disgrace to our gracious benefactor who, at your request has given you your job. Due to lack of consideration for your jobs with so fine a company, as shown by such frequent absenteeism, the following changes are in effect as of today:

SICKNESS: NOT AN EXCUSE.... We will no longer accept your doctor's note as proof, as we believe that if you are able to go to the doctor you are able to come to work.

DEATH: Other than your own. This is no excuse...... there is nothing you can do for them, and we are sure that someone else with a lesser position can attend to the arrangements. However, if the funeral can be held late in the afternoon we will be glad to let you off one hour early, provided that your share of the work is ahead enough to keep the job going in your absence.

LEAVE OF ABSENCE: (For an operation) We are no longer allowing this practice. We wish to discourage any thoughts that you may need an operation, as we believe as long as you are an employee here, you will need all of whatever you have and you should not consider having anything removed. We hired you as you are and to have anything removed would certainly make you less than we bargained for. Anyone having an operation will be fired immediately.

DEATH: (Your own) This will be accepted as an excuse, but we would like two weeks notice, as we feel it is your duty to teach someone else your job.

Also, entirely too much time is being spent in the restroom. In the future, we will follow the practice of going in alphabetical order. For instance, those whose names begin with "A" will go from 8:45 to 9:00, "B" will go from 9:00 to 9:15 and so on. If you are unable to go at your time, it will be necessary to wait until the next day when you turn comes again.

If any infraction of the above is noted, immediate termination of employment will result.

BEST OF HEALTH.............
Spring 1973

To the Graduating Class of 1973:

As a new college we have had the unique opportunity to create exciting educational programs and to build the foundation of an institution which will serve many thousands of people. Clearly the students of our first class have made many major contributions to this effort. I know that I speak for the entire staff at LaGuardia Community College in saying that the past two years has been a rewarding time for all of us.

Since you are members of our first graduating class, your graduation represents an important milestone for your new academic and vocational careers and for the college in general.

A college exists to help prepare its students for a more successful and rewarding life in the world beyond its doors. This has been, and will continue to be, our primary task. We hope that we have given you the basic tools necessary to aid you in your future endeavors.

My very best wishes for your future happiness and success.

Sincerely,

Joseph Shenker

It was a rainy September day of 1971 when I arrived at LaGuardia Community College for my first day of classes. As I walked towards the college, all I saw was factory after factory. As I started walking up the steps of our college, I began to feel scared and lonely. I was in a new school and didn't know anybody. As I walked into class, I saw strange faces looking at me. I took a seat in the back of the room, and just sat and sat. That seems ages ago. Today I know the school fairly well. Many of the strangers have become good friends, I have become acquainted with some of the faculty members; I have become accustomed to walking past the factories, and I have grown somewhat from my experiences at LaGuardia.

Tomorrow I start another adventure of my life; whether it be a four year college or the world of work. There will be the strange faces and strange surroundings again. No matter where I find myself tomorrow, I will always remember LaGuardia Community College. I will always remember it because I made new friends here, I went out to work for the first time in my life, and I learned many things about myself, both academically and socially. Goodbye LaGuardia, until we meet again, if ever.
The Last Goodbyes
By Marion Tobias

Sunday, September 16, 1973 will be the start of a new life experience, and the ending of an old one. After two years, the time has come to say goodbye to all the people that have become part of our lives during our stay at LaGuardia. We say goodbye to our friends whom we ate with, attended classes with, sat in the lounges with, cut classes with, did many things with in and out of the school. We also say goodbye to the faculty members that we have become acquainted with during the past two years. This is a time of joy and sorrow. Joy because by some miracle we are graduating, and are now looking forward to going out to work or to a four year college. Sorrow because the people we are saying goodbye to today, we may never see again.

So on Graduation Day, there will be many tears of joy and sorrow. We have all gone through this type of change one time or another in our lives. It is a difficult period, but we must live through it the best way possible. We must be able to forget about the past and look into the future. Go onward to bigger and better things, but keeping in the back of our minds all the good memories of our friends here at LaGuardia Community College.

Memories
by Louise T. Thamarus

As my two years at LaGuardia Community College draws to a close, I find it necessary to reflect upon all that has happened to me during my two years here. I find it necessary to remember people no longer here, to reminisce about every day occurrences, and to recall unusual happenings.

I cannot say that my two years here were the best of my life, however, I can say that they were meaningful.

Summer Quarter '72 — My first internship at Emmanuel Day Care Center . . . A lousy practicum . . . Meeting Marion . . . Good-by job . . . 

Summer Quarter '73 . . . Working in the school darkroom . . . Pat H. becomes a friend . . . The Yearbook is completed . . . First graduation nears . . . 

There is nothing more than can be written. Summing up two years isn't easy but I did it with the hope of somehow, somewhere, somebody will be able to identify with these incidents.

It's been an unusual two years and some of it worth it. I'll close with these last words: "Best of luck to my friends and acquaintances in the first graduating class of LaGuardia!"
