Salesmen of "U" Books Start Campaign Today; 100 Per Cent Sales Aim

Hygiene Department Student Council Begins Sales Today

S. C. Ticker, A. A. in Book

Facilities of Three Groups Available to Students at Twenty-Five Cents

Conscientious 100 per cent co-operation from the student body, concurrent with the opening of the semester, the hygiene department in conjunction with the Student Council, begins its drive for the sale of student union memberships. A perfect score for student backing is expected, because the attractiveness of the bargain offered is noteworthy in itself.

Member Gets Benefits

To the holder of the "U" book for this term there will accrue greater benefit and advantages. In addition to fifteen issues of the Ticker, free, there will be reduction in price for one or two social functions already tentatively planned by the Student Council.

Medical Slip Included

Furthermore, a new feature has been added. A slip, which is signed by the student himself, without further trouble, allows the bearer to participate in the hospital and medical activities during the term.

Required for Activities

It should be stressed that no applications for extra-curricular activity or membership in any undergraduate organization without a "U" book.

As usual, the price is 25 cents. Distribution of "U" book subscriptions will be handled by the hygiene department and the student sales committee. The books will be sold in hygiene classes.

First Freshman Chapel Meets Today at 12 in 4N

The first meeting of the freshman chapel, compulsory freshman assembly, will be held at noon today in room 4 North. At the meeting Saul Braverman, head of the freshman committee, will reveal that the freshman regulations in the past have prescribed the dress of entering freshmen, have been amended to a point where only the traditional black and lavender tie will be obligatory. The wearing of white socks and navy blue caps is no longer necessary.

"Lexicon" Sales Over 200 Mark

Well over 200 seniors have already subscribed to "Lexicon," the yearbook of the class of 1938. Now less than 150 remain to subscribe. The price is 25 cents.

Through unusual photographs, the theme for the yearbook is being planned. Those seniors who want to help in the planning will act as positions on the staff at the first meeting on Thursday, September 19, at 1:40 P.M. For non-seniors, a junior will be formed. Interested undergraduates may apply at this time.

A special meeting will be held to plan the Bulletin Board for further announcements on the New York University. The Bulletin Board will be held at 1:40 P.M. The news will be submitted by Wednesday, September 25, to Saul Braverman or Stanley Kohnenthal.

Pegasus, English Society, Meets Today at Noon

The first meeting of the English Society, Pegasus, will be held at noon today in the English Library, room 822, according to an announcement by Lawrence Bushlow, acting secretary.

Dr. Harry Leffert and Mr. Arnold Shukatoff of the English Department will serve as officers. The society was reorganized at the end of last semester after a year of inactivity.

Robinson Depicts Glowing Future In Radio Speech

Sketching an optimistic description of the future, President Robinson declared:

"This is the start of a new year for us all. We are not going to be defeated by the spirit of the past. We are going to show the world of strife that the New York University is the right kind of institution that is going to be here a long time and that is going to work for the welfare of the community."

"There is going to be a lot of wholesome endeavor, supervised by men who have lived in various branches of human knowledge, who know young people. Courses of study will impart the factual knowledge of the race, inculcate habits of accurate observation, and clear thinking and desire to seek always for truth and more truth."

Dr. Robinson warned students not to get too insecure because the world of the past has made a great deal of the world of the future.

College, he characterized as having the right kind of a young people to distinguish the genuine from the spurious. For, he said, "as in the past, students will feel the repercussions of the world of strife, in their choice of propaganda, their greed and fear."

However, relief from the rigorous classroom toll will be afforded by physical sport and free intellectual discussion," Dr. Robinson said.

In his final analysis, he felt that colleges "will help" the student to "be above all, effective, full of life, wise, and good."

The Administration in Washington,
An Appeal

RUMORS to the contrary notwithstanding, federal financial aid will be available to new students this year. The National Youth Administration will continue the work of the Federal Emergency Relief Administration. Therefore, as of today, all application blanks will be available in room 307A.

In this connection, may we appeal to you to do your best to see that the right persons get this aid.

There is no doubt but that all of us could use the $375 a week which these jobs pay. After all this sum does represent more elaborate studies and four years or two a year. But there are some among us who must have this money to continue going to school. To whom, then, would you be willing to see this money go? Do you know young men, books, shoe repairs, haircuts and the like.

As competent as are Dr. Compton, Professor Philip and the others who investigate the applications for work relief, there have been, and will doubtless continue to be, many students who receive relief to which they are not entitled.

It is the business of every one of us to see that this number is kept at a minimum.

If there were enough funds to give everybody a finger in the pie, The Ticker would not concern itself with those to whom relief is a luxury. There is no calling for it.

When you take an N.Y.A. job to which you are not entitled, you may be forcing someone else to drop out of school.

If you can't possibly do without this aid, think twice before taking the job. It may be a person's predilection.

There are too many students who are on the N.Y.A. lists and don't need the money, so some poor student gains a favor and gives your information to the office. As badly as we feel to have to "squeal" on someone, so much more badly must we feel to have to stand by and see a funds forced out of school by a student whose only consideration is himself.

Let's all cooperate and see if we can't help direct the N.Y.A. funds to those who need them.

We Must Unite to Repel from Our Shores All Radicals and Other Trouble Makers—Alphonse Capone
