GSUC ARCHIVES

I. SUBJECTS

The material in this record group deals with the Graduate Center generally, i.e., it is not focused on a specific subject or organization, or on a specific group of subjects or organizations. Most of it was received originally from the Mina Rees Library and the Office of Public Affairs; but some came from individual academic departments and centers and institutes (usually via the Library), and some is of uncertain or unknown provenance. A sizable group of both recent and older files was transferred to the Archives from the Library in the spring of 2013. And in 2010 the Provost's Office, for the first time, sent a batch of its files to the Archives: 8 large transfer cartons containing mostly older, obsolescent material but also a few scattered recent papers.
