Registration of women from the Phi Alpha Kappa chapter last fall marked the culmination of a three-years-long campaign waged by school organizations for the readmission of women to the School of Business, which was set up by the Board of Higher Education in February 1937.

Inadequate funds and facilities were originally opposed by the Board of Higher Education as the reason for the banning of women. The changing of the college's name, when last opened, took place in the name of the women's page columnist. The name of the women's page columnist, as the name of the women's page columnists, was chosen in a spontaneous and unorganized manner.

Spaniards Defend Democracy

As the student body of America, returns to books, the theory and political science of another country, arms are ready to repel the Fascist enemy. War, which has been longly termed civil war, grips the Spanish nation. It is the struggle of a people against the Fascists and the Fascist movement, which has been previously seized by Fascist agents. The struggle is not only for the freedom of the Spanish people, but for the freedom of all mankind. The Fascist movement is not only a political movement, but a social and cultural movement, which seeks to destroy the foundations of the democratic order and to create a new society based on the principles of Fascism.

As a result of the Spanish conflict, the enlightened newspapers have been brought over backwards. They have not permitted a democratic government to exist in a country similar to that of the United States.

But that is the fact. Fascism, knowing no bounds, has seized upon the country of its choice, and will attempt to dominate it. A Fascist state is to be established. A Fascist society is to be formed.

The course of Spanish students will be studied by the international aid of those who believe in democratic order.

Co-eds are Back, and War Isn’t Bad

The freshman registration process is now underway. Many of the Big Sisters and Big Brothers are out and about, looking for their new charges. The co-eds are back from their summer experiences, and the war isn’t really bad.

In the American scene, where the war is raging, the students of the University are not in favor of the Fascist movement. They realize that all they stand for—democracy, freedom—is opposed by the Fascist movement. They must also realize that a Fascist victory will go far in bringing about the end of democracy and freedom.

The struggle of the Spanish people is a struggle for democracy and freedom. It is a struggle for the survival of the democratic order. The Fascist movement is a movement for the destruction of the democratic order. It is a movement for the establishment of a new society based on the principles of Fascism. It is a movement for the destruction of all that is good and noble and true.

The Spanish people are fighting for their freedom. They are fighting for their country. They are fighting for the survival of the democratic order. They are fighting for the future of mankind.
