PRICE FIVE CENTS

Hold Fourth Anti-War Rally at 11

WHEN the 11 o'clock bell sounds this morning, the student body here will quit classes for two hours and march en masse to Madison Square Park to signalize the fourth annual nationwide strike of students against war.

In Madison Square Park, Commerce students will be joined by contingents from Hunter College, Thirty-second Street and Sixty-eighth Street buildings, in a united demonstration for peace.

"If," declared Frank Herbst '36, chairman of the Students' Rights Committee, "the war-makers quaked in their boots before previous strikes, this one will give them, at least, epileptic fits." The speakers scheduled to address the on-duty strike meeting include such prominent exponents of peace and progressivism as Roger Baldwin, director of the Civil Liberties Union; Paul Reid, national executive secretary of the American League against War and Fascism; James Waterman Wise, author and lecturer; and Erika Mann, daughter of the exiled German novelist, Thomas Mann.

Clifford T. McAvoy, of the French department, and Arnold Shaskof, also of the Students' Rights Committee, will deliver addresses for the Teachers' Union.

From the ranks of the students themselves leaders in the extra-curricular activities of both Hunter and City College will address their classmates.

Among those scheduled to speak are Janet Moses, president of the Students' Rights Committee; Harry Grosman, editor-in-chief of THE TICKER; Robert S. Finch, local chairman of the American Student Union; Earl Milledge '38, vice-president of the Student Council; Bruno Aro, president of the Student Council; and an unnamed speaker from New York.

To overcome the open-air acoustical difficulties, a microphone has been obtained, which will carry the speakers' message to the ears of every listener in the record turnout which is expected.

The demonstration will feature a horse and buggy drawing the EFFICIENCY OF HITLER AND MUTSUSHI, effigies of Hitler and Mussolini, posters listing out—war, fascism and the war makers and pleading that "you fast so that Spain may eat."

1,000,000 to Strike

With the direction of today's strike in the hands of the United Student Peace Committee, comprising 13 national student groups, 1,000,000 students from 900 colleges throughout the nation are expected to participate in the Peace Day demonstration. It is estimated that in New York alone, 50,000 college students will suspend class-room work to engage in Anti-war activity.

Classes Not Called Off

When asked by Frank Herbst, chairman of the Student Right's Committee, whether classes could be called off this morning at 11 o'clock, Dean Moore replied that "the same rule applies as uptown." The rule is that a radiation cut this morning is to be treated as an ordinary cut, with no disciplinary action to be pursued by the administration.

With regard to "the fast for Spain," James Wechsler, editor-in-chief of THE TICKER, expressed the opinion that the purpose of the fast is to show that youth is willing to give up something for peace.

Stern Trials of the Past Fuse

Hardy Traditions of Strike

Many Obstacles Surrounding the 4-Year Drive Toward Peace

Rain, cold and unpleasant prospects in general proved no deterrent to the students striking at Madison Square Park, held in 1934, when more than 100,000 students enrolled in the School of Business walked out to join their classmates to join 130,000 students throughout the nation to protest against war.

The chairman of the assembly, who preferred to meet in the sun or outside at Madison Park to prove it, went, and to take hopefully by walking out to it, "Safes," commerce students were joined by strikers from Townsend Harris, Stuy and Washington Irving schools.

Fully 1500 students of the School of Business met at Madison Square to protest war, and to take a stand against the government of the United States in the war.

Students from three branches of Hunter met the striking students at the Park in 1936, and brought with them four speakers. In addition, the assembly was addressed by James Wechsler, editor of the "Student Advocate," Jack Kallish, 37, then vice-president of Student Council, Gustav Allin, of the Young Peoples Socialist League.

"City" Civil Service Greets Strikers

All-College Strike Committee
City College is on the occasion of the April 22nd Strike for Graduates of the College in Civil Service.

A statement of the militant tradition of our student year, but are carrying on our Anti-War and Anti-Fascist activities in our present fields. Contact with the outside world has not abated, but has been reinforced by sympathy with the student movement. It is significant that the college men who have come in contact with the student opinion of recent years are in the forefront of the revolutionary movement in Civil Service.

We have learned that in this strike City College is fasting "so that Spain can eat." We cannot call the strike a fast, because we too shall fast on Thursday and shall send our contributions to the International Relief Memorial Fund for Spain.

-City College Men in Civil Service

MCNA Concludes Collegiate Canvas on War Problem

Out of the 15,000 college students polled by the Metropolitan College Newspapers Association on seven campuses, 87 percent of the voters declared that they would not be at war; 75 percent of the voters declared that they would not be at war, not involving America, while 86 percent of the voters declared that they would not be at a war involving America, but not on American soil.

In answer to a first question, "Do you regard all wars as unprofitable?" 56 percent voted yes. "The tally of this proposition differed in many of the college, with such qualifications and issues as class wars and foreign invasion, being raised."

A war in defense of America against foreign invasion would only 25 percent of the people polled on a city-wide scale agree to the banner.

While the Ticker poll showed that the people of the city of New York are against war, and for peace today. The answer, regrettably, is being written before our eyes, in the hearts of the people of the United States.

The drums of war are rolling in a none-too-distant future.

But our action does not cease when the last word has been spoken against war, and for peace today. The growth of the student peace movement since its inception in 1933 was not the product of four April 22's—nor a thousand years. The only new fact is that the Spanish Civil War is no longer a symbol of the tragic conflict of the Republican and Fascist forces in Spain, but is a battle for the freedom of all the world.

The drums of war are rolling in none-too-distant places. Our action against war today, tomorrow and the next year can muffle these drums with the louder cry of peace.

And our voices will be heard if we raise them long enough and loud enough.

Strike for Peace

An Editorial

The following editorial appeared simultaneously in many college newspapers in the metropolitan district, and is printed from the Metropolitan College Newspapers Association.

Three weeks ago, America marked the twentieth anniversary of her entrance into the World War. We might well ask in this年第 anniversary, how many of our number were slain or maimed, how much have we learned as a nation following the war, and for peace today. The race against life, jointly sponsored by the United States, was greatly increased.

The drums of war are rolling in none-too-distant

**Student Faculty Action on Today's Peace Front:**

**Inter-Club Strike Call**

1. We support the Peace Strike on April 22nd at 11 A.M. and urge all students and teachers to leave classes and join this nation-wide protest against war.

2. We demand that colleges and universities be militarized that Congress pass the Nye-Kvale Amendment to eliminate compulsory military training; that this step be the first in the abolition of all military training in schools.

3. We oppose the billion dollar war budget which represents a dangerous extension of militarism and we urge that this money be used for such socially constructive projects as the American Youth Act. We furthermore condemn this billion dollar war budget under the guise of national defense.

4. In the light of the present situation, we support the Oxford Pledge.

5. In the defense of the democratic nations against Fascism, and to protest against war we urge the American Federation of Labor to join the Anti-War Strike.

**Quoting the Faculty on Peace**

Prof. A. D. Compton

"I am in favor of any practical effort to keep America out of war. We are fighting to save peace and democracy, not because the war is a war of aggression, but because the war is a war of aggression.

- Robert W. Lordson, President

**55 Members of Faculty Favor Broad United Drive for Peace**

Reply to Query Opposing Any Future American War

Today's Peace Day demonstration rallied the broadest faculty support in the four-year history of the student movement against war. When 55 members of the school staff signed the following query:

"Do you favor a broad Peace Movement, designed to keep America out of any future wars?"

A number of instructors amplified the above query with pointed remarks on the problems of war and peace, and these statements found themselves in today's issue.

- When approached for a statement on Peace Day, Dean Justin H. Moore sent word to the "Ticker" that he did not choose to be quoted.

The following members of the faculty endorsed "a broad peace movement to keep America out of any future wars" by signing the "ticker" query quoted above:

Professor Alfred D. Compton, Dr. Bernard Oedroben, Jacob S. Mossesom, Raymond E. Liddle, Professor R. H. Hess, John Krauz, Louis L. Tabery, A. M. S. Selden, Clifford T. McCafferty.

- Dr. Boris G. Dressler, David S. Mossesom, Raymond E. Liddle, Professor Lawrence E. Masters, Professor George M. Hayes, Miss Florence Ferrr, Myron L. Buech, Dr. Henry B. David, Frank A. Thornton.

F. H. Bontempo, Arnold Shuboff, J. A. W. Brown, Dr. Ernest Willcox, Dr. Randolph P. Smith, Dr. Ross A. Ertick, William Schuman, George Bergenhall, A. H. Sutherland, Dr. Albert S. Schuman, Dr. James H. Schuman, Dr. Henry David, Dr. Frank A. Thornton.

We believe in the Anti-War Strike as the best and most effective method of student action to focus the attention of the country on the dangers of war.

- Bruce A. Ross, President

The German Club: "The German Club wholeheartedly supports the strike against war. We feel that it is the only crystallized expression of the students' body against the menace which threatens our peace and security.

- Schuster, President

**Law Society Endorses Anti-War Demonstration**

At its last meeting the Law Society, without a dissenting vote, voted wholeheartedly to support the April 22 Peace Strike.

Alfred Meisner, president of the Law Society, said that "as the best means of expressing the students' sentiments against war, the Strike Call was decided to be the best means of expressing the students' sentiments against war, and declared:"I believe, however, that the strike should not be the final decision, but that it should be the rallying im-

gress. In order to really strike, every man must join the Strike Call which was drawn up by the 'organizations in school.'
