SC Opposes Faculty Ban On Browder

By Irving Shulbank

"I have in mind the opinion of the student body. We had been up through the student body," Raymond Friedlander, Chairman of the committee, said Thursday.

"The Faculty Committee has indicated it is content to be the voice of Hearst, Paichard, and Harvey at the College. They have no right to study Communism in a tax-supported institution."

"The award committee must be handed in their entries not later than Friday, December 15, to the Literary Council's special meeting of the week."

"The previous week, the Council was scheduled to speak up on both Thursday and December Session groups."

"The Faculty Committee on Student Activities Thursday unanimously denied Earl Browder, general secretary of the Communist Party, permission to address students at City College. Mr. Browder was scheduled to speak up to both City College and Moscow University."

In its report banning Mr. Browder's speech "at the present time," the committee claimed that the meeting "would be utterly unproductive."

However, they emphasized that "it has always been the policy of the college to allow students wide latitude in the discussion of political questions of different political opinions and economic ideas address them."

ASU, At Model Convention, Discuss Peace And Labor

At a model convention last Wednesday, the ASU split into three panels to discuss topics which will be brought up at the national convention at Madison, Wisconsin.

The "American Foreign Policy" panel adopted a resolution condemning the present conflict between England, France, and Germany as an imperialist war. It also voted to fight the current war "denouncing it as a war for the defense of "free" Russia, and declaring that the United States would not be able to live up to its own policy of "strict neutrality," and supporting all trade unions and other organizations which maintain strict neutrality for the United States.

The "Labor and Peace Policies" panel decided that the "New Deal" is not the peace force it used to be and passed resolutions condemning the present war as imperialist, recommending that "peace" be defined as "no war" and that the United States remain neutral.
