Students Requested To Write Testimonials

Continuing its fight to have Dr. Saul Bernstein, tutor in biology, promoted to instructor, the American Student Union, has requested former students of Dr. Bernstein to write testimonial letters to President Robinson.

Dr. Bernstein, who was denied promotion after more than seven years of teaching at the college, in January of this year, was told by Prof. A. L. Meander, chairman of the biology department, that he would not receive the promotion due to the ground of "incompetence," and was asked for details he gave in details supporting this or any other reason.

At a conference held last week with Dr. Robinson, the suggestion was shown a large collection of letters that students had written to Dr. Robinson, re-furing the charge that the tu-"incompetence," and was asked for details he gave in details supporting this or any other reason.

A resolution signed stated: BE IT RESOLVED, that we, the students, urge the promotion of Dr. Saul Bernstein to the Instructorship.

PROLOGUE TO GLORY
By Berry Business and Joe White

"Instead of hating a man or woman when they don't give you what you want, you should love them and pray for them, because they are lacking something and need your help."

Two days ago, I went to the movies with my friend, and we saw a film that touched my heart.

The film was about a young girl who faced many challenges in her life, but she never gave up on her dreams. She worked hard and never lost hope, even when things seemed impossible.

I found her story inspiring and thought-provoking. It made me realize that life is full of ups and downs, and we must keep moving forward no matter what.

I hope that you will watch this film and be inspired by its message. It is a true story of resilience and determination, and it is sure to touch your heart.

Maxwell's Render

CROW NEST

By Norman Slager

A MAN WITH DRIPING FEET

A man with dripping feet is not something one would expect to see walking down the street. Yet, this is precisely the image that comes to mind when one hears the name Maxwell's.

Maxwell's was a man known for his towering feet and his love for dancing. He would often be seen striding through the streets, his feet covered in mud and dirt.

In his later years, Maxwell's became a beloved figure in the community. He was known for his kind heart and his willingness to help those in need.

The story of Maxwell's has been passed down through generations, and it continues to inspire us today. His legacy lives on through his example of resilience and perseverance.

I hope that you will take the time to read more about Maxwell's and his story. It is a true tale of a man who overcame great obstacles and emerged victorious.

Pardon Our Error

Sorry, we were only kidding.

Last week, the Tickler took a beating when it came to the school administration and the faculty. We were accused of being the only one who dared to stand up against our oppressors, but we are only kidding.

We were just trying to have some fun and make a joke. We hope that you will forgive us for any inconvenience caused.

Sincerely,

Compton Rejects Post After Dean’s Action

Disregarding the requests of members of the Caravan, staff, and that Professor A. D. Compton be named as their faculty adviser, Dean Justin H. Moore last Friday appointed Professor A. D. Compton to fill the advisory position.

Immediately upon notification of his appointment, Professor Compton refused to accept this power upon himself.

Dean Moore’s appointment was stated to have his numerous activities at the present time would not permit him to bother with the publication.

In other quarters, concern was voiced as to whether Dean Moore possessed this power of appointing faculty advisers. One member of the faculty stated the Dean had no such power.

Believe Dean Assumed Power

Futhermore, according to Mr. Arthur H. Sutherland, secretary of the Education Committee on Student Affairs, the recent Meddick resolution of the Board of Education mentions that faculty advisers should be appointed. However, nothing is specified as to who shall appoint them.

It is the belief of certain faculty men that Dean Moore assumed this power upon himself and of appointing faculty advisers should really rest with the Faculty Committee on Student Affairs.

George takes Exams now without his rabbit’s foot

He’s Found A Better System for Getting Higher Marks

Many students still have a primitive faith in four leaf clovers, lucky pennies, and rabbit’s feet to carry them through an examination. These students probably haven’t heard of the College Outline Series — how easy it makes studying, how thoroughly it prepares them for the most harrowing exam.

Each College Outline covers fully everything of importance in the subject you’re studying. It highlights vital facts, parses away useless material, throws information you must know into sharp focus. And all in such simple, readable form that it registers deeply.

Studying with College Outlines will help better your grades. Try it. See the series at your college bookstore.
