First Monthly Issue Appears Oct. 29

As a result of the removal of the Ticker from the COMC Monthly just before the close of last semester, it was necessary to suspend the Commerce Center Wednesday, October 27.

Promised in the issue will be numerous feature reviews of short stories, poetry and music which now seems to be current among the best known.

The cover art was designed by Jerome Waldman. In a statement issued at the time, the administration labelled the story as "obscene and scurrilous."

It was not until after several months of campaigning by the liberal forces on the campus that the ban was rescinded.

The back copy on "Mexican Love" by Luis Bunuel, which was recently sent to Mexico by an American, is a recent release and a highly anticipated film. The plot is complex and involves a mix of historical and contemporary elements. The film is known for its dark humor and political overtones.

"Preceded by itself and blue" is a famous quote from the film, which perfectly captures the tone of the story, which is filled with surreal and unexpected twists.

The film is a true example of Bunuel's unique style, which combines elements of the surreal with social commentary. The film has been praised for its use of dream sequences and its exploration of the human condition.
