STOP FASCIST

assassins!
DEAR CLASSMATE:

It is difficult to write calmly about war and peace today. We, the post-war generation, first learned about war from text-books ... then the pulp-magazines, then Hollywood. Today, we learn about it from the front-page of every newspaper, from the conversation on everyone's lips, from the air we breathe.

We've often wondered about war, haven't we? Was it really something to fear ... or was Hollywood's glamour more impelling?

We don't worry any longer. It's too real, too close.

Italian Capronis bank over an Ethiopian village; says young Mussolini, "It was really glorious to see the men and women fall and the grass shucks go up in flames" ... Japanese planes reduce American-sponsored Nankai University to melted steel and charred brick ... over 1,000,000 killed in China, that time one million people, humanity, the good earth ... Against Capronis and Heinkel over Madrid, Guernica, Barcelona ... time-face bombs, one through seven stories of an office building, a nursery school, then shattering outwards ... Nazi artillery shedding Spanish blood, terrorizing Austria out of existence, forcing the "liberated" to suicide ... menacing Czechoslovakia, and the world.

Behind it all, the triple alliance of terror, the Berlin-Rome-Tokyo axis, the swastika, the fascists, the skull-and-bones ... marching, bombing, destroying human life, human happiness, liberty, culture, religious freedom, world peace. The unholy three ... with faces east ... and west and north and south. Fascism against world peace.

"If those things come to pass in other parts of the world, let no one imagine that America will escape, that it may expect mercy, that this Western hemisphere will not be attacked and that it will continue tranquilly and peacefully to carry on the ethics and the arts of civilization."*

We've made up our minds, we hate war.

But war cannot be hated in many ways. It can be hated in only one way ... that way it to stop it!

For all its bluster, for all its swagger, for all the
