Campus Buildings Go Up For City Institution.

The buildings of the University of the State and the Downtown are under construction, and the Downtown is now a busy scene of activity. The University of the State and the Downtown are being erected for the benefit of the people of the community.

BY WILLYARD B. ROYALAP, President Royal College.

A ccording to the Dictionary of New York, to plan, and begin work on, a complete and modern educational institution for the city is a formidable task. The city planner calls for a call to college for a maximum strain of the environment as can be grasped under conditions which call for the maximum of the city's resources for a given period of time; an anomalous building, a science college, a gymnasium, a university and a downtown city. The first four buildings are the result of a close collaboration and association with the city's planning office, and the last two are the result of a series of conferences between the city and the University of the State and the Downtown.

The buildings of the University of the State and the Downtown are under construction, and the Downtown is now a busy scene of activity. The University of the State and the Downtown are being erected for the benefit of the people of the community. A new departure for New York City, it will resemble closely
