City Crowns Kingsmen In Slugfest

By Dick Goldberg

In as ludoous a way as possibly a ball-game as has been played at Lewiston Stadium this or last year, the City College of Brooklyn, 22-4, last Thursday.

The Beavers did just about everything to the Brooklynites. They hit doubles in profusion, especially prolific in the production of singles and played an extra ball to make the Kingmen unwilling to go in the baseball comedy. The Beavers ran over the river and handled the ball as if it were a hot potato, making eight errors, and gave just as ineffective a bat connecting as two cheap singles.

The Dagoes, of course, had an ear-splitting grin on his classic pan during the decade and after the home game. The opposition was poor but City sure looked great. They're just a bunch of fluffing, foolish, and foolish.

This Brooklyn team was just about the scrivellist bunch that enrolled last year. There weren't two players who had the same caps and some had to get them all together. They had a 5:6 first (Continued on Page Three).

Job Applications Due Tomorrow

In order that current seniors entering the business world may complete their highly selective group of employers by June 1, and thereby have greater opportunity to find a position of the faculty, it is estimated by Mr. J. 0. Le Van, President of the College, that the brochure will be compiled immediately. Mailing of the brochures will then follow advertising the excellence of City College graduates.

Subscription to the brochure does not guarantee a position. However, through the aid of members of the faculty, it is assumed that all applications submitted to the Bureau Career Committee has announced that all applications must be submitted to the Bureau career program to be considered immediately. Mailing of the brochures will then follow advertising the excellence of City College graduates.

Yard Urges ASU Fight Budget Cuts

Alerting that academic freedom needs leadership on the campus if it is to survive, the Yard Yard, National Chairman of the ASU, urged strong participation against educational reenforcement at the ASU meeting Wednesday. The organization to give that leadership, declared Miss Yard, "this is the ASU."

To prove this education is in serious danger as a result of new budget cuts, Miss Yard invited several "lesser" universities. Johns Hopkins and Reed Colleges were two examples which, according to the Yard, were being recipients of federal reenforcement. Miss Yard cited examples of the entire liberal element that was being eliminated from the instructional staffs of such colleges by the dismissal of all instructors and professors with any liberal tendencies.

The need for a force to combat such procedure was said to be great. Further details of the budget cut will be discussed by Henry Foner, who told the group that the incurrence of a summer session may be attributed to the large representation at the student demonstration before City Hall.

A drive for membership and collection of tickets for a "Midsummer Night's Dream" was urged.

By Al Eader

"Motivation is the most neglected phase of study in the whole field of psychology," states Dr. Maurice, instructor of the City College School of Education, in an article. "An Emerging Interpretation of Motiv" appearing in the Commercial Teacher, official journal of the Education Society, which came out last week.

Of particular value to all candidates for teaching positions is Nathaniel Altholz's outline of his address, "Trends in Commercial Education," given before the Education Society. Dr. Altholz, director of commercial subjects in New York City, discusses changes in the commercial teacher training program. "Student-Teaching Rating Chart" by Agnes L. Tompkins, supervisor of Commercial Education in Pennsylvania, is an excellent guide for student teachers to check their classroom efficiency, judgment, and ability to motivate.

Those students will remain untold for at least another term.
