Cuant Set to

Huge Rally to Climax Drive; Brown Brooks

In a flurry of posters, ban- zers, tags and buttons, the Student Union will enter "New York Area Week," Monday, prepared to push the drive in a big way and to add 125 students, steadily increasing membership of the organization.

A six-page pamphlet, describing the ASU's campaign being conducted on the campus, is in the hands of all fraternity, sorority and affiliated organization members; and it will be available to any member on request. The pamphlet will be distributed by members of the ASU, and by members of other organizations.

In the fall, two new members were added to the ASU, and in the spring, two more members were added. The ASU has never had a membership of over 125, and the organization is still growing.

Kober "Having a Wonderful Time"

By Martin Abramson

"It's a far cry from the Bronx, 14, his hilly home, to the Essex House where he now resides." It was a comment made by Arthur Kober, who at the hospital he now resides, in a loving atmosphere, whose window looks out on Central Park, the home of "Having a Wonderful Time," his former residence in the Bronx.

Kober, who is a former student at City College, the home of the "Having a Wonderful Time" group, is recovering from an operation on his foot. He has been in the hospital for several weeks, and his condition is improving daily.

Seconded on page three.

Theatre Stages Rice Play

On December 2nd, 1937, Theatre will produce Elmer Rice's "Theatre Stages Rice Play," at the Playwrights' Club. The play is a picture of the social and political life of the theatre in America. The play is a picture of the social and political life of the theatre in America. The play is a picture of the social and political life of the theatre in America. The play is a picture of the social and political life of the theatre in America. The play is a picture of the social and political life of the theatre in America. The play is a picture of the social and political life of the theatre in America.

St. Seeks 2000 Names on Petition 
In Campaign for Free Textbooks

By Bernard Hennett

The result of another successful Student Union petition drive this year was announced last week when the student group submitted over 2000 names of students who signed on to the petition.

The drive is part of a campaign to get the college to provide free textbooks to all students. The Union is currently conducting a survey of the student body to determine the exact number of students who would benefit from this program.

The results of the survey will be used to support the petition drive and to lobby for changes in the college's textbook policy. The Union is committed to making sure that every student has access to the books they need to succeed in their studies.

The Student Union is encouraged by the support it has received from the student body and looks forward to continuing its efforts to improve the quality of education at the college.

The Student Union thanks all the students who signed on to the petition and encourages those who have not yet done so to do so as soon as possible.
The Ony Way

THE Faculty Luncheon Committee has an excellent opportunity to present its enduring lesson in personal management to business students this week. Nine lunchroom workers of a total of eleven have already signed cards with a CIO union, the Local Workers and Soda Dispensers' Union, which has presented demands for union recognition, a modest reduction in hours, and a wage raise.

The demands of these workers have good reason to band together to gain what they call collective bargaining is indicated by their wage scale and working conditions. Because of an arrangement known as the "split shift," workers are forced to remain on duty twelve hours a day although they work nine hours.

It is unfortunate that the Faculty Committee has permitted Mr. Early, manager of the luncheon to make the impossible threat that the workers would leave if the lunch allowance room was not made available to the student worker who joins the union. More serious is her attempt to prevent the workers from discussing their plans with a Ticker representative.

If individual members of the Committee were sincere in statements in classrooms concerning the right of labor to organize, they should match theory with actuality by adoption of the following formula:

The immediate recognition of the union as sole bargaining agent.

The granting of all demands presented by the union.

The Democratic Way

Rosa stein at the Dr. Klapfer testimonial dinner were sixty or seventy women, but none had a more welcome reception than John T. Fitch, member of the Board of Higher Education, who afterward that Dr. Klapper, upon being asked about the recognition of the Queens College Faculty, declared simply that all members of the Faculty were to be included on a self-governing Faculty.

It is an anachronism that the City Colleges were founded on the most democratic of principles, should have a Faculty composed of Professors, associate Professors, and assistant Professors, members of the teaching staff, instructors and fellows is excluded from participation in school government. The Union calls for a Faculty which will include all members of the staff, which will organize itself in any way it deems fit; and which will subject to law and the general will. The Education, be the supreme governing authority of the College.

These requests are so reasonable, and in line with the spirit of City College to such an extent that the Board of Education would have no justification for delay in thus transforming a whole faculty into a real governing faculty.

Peaceways

JAPAN conquers. The new Military Police move into Ryozenki Station, the old Police Station of the Tishibun's. There is a story of Fascist aggression.

The story of Fascist aggression in the story of living. Who are these aggressors, and what are these aggressors? For today, Feb. 30, Must Be Stopped.

Everyone will admit that if these Fascist aggressors were stopped, there would be no threat to this government. They would be continuously tiding themselves to the government, as they have done with their plagues and plunder.

The people of the world who stand to lose are the work by which they have been, Czechoslovakia, the Soviet Union, and every other nation.

Force Should Be Utilized

How is this possible? It is obvious that if the Fascists stop they must utilize every available force for defense. First, and foremost are the peoples of the world who stand to lose. These are the people who will not act without a realization of the value of their property.

Observe Kellogg Pact

We must call upon our government to carry out the terms of the Kellogg Peace Pact. The present treaty will not stop Fascist aggression resolve the release of some counter-propaganda by the fascists. It is to stop the" italicize "quarantine" of the aggressors. Now it is up to us to make sure this policy is not defeated.

The anti-Fascist boycott has been in line with the" italicize "quarantine" of the aggressors. Now it is up to us to make sure this policy is not defeated. The American people must organize and fight with the Fascists. Roosevelt made his speech, these same arguments furred and faced to beat the band.

People's Vigilance Responsible

We do not place a halo around these Fascist aggressors. It is the vigilance of the people which we are supposed to guard.

Collective Security Necessary

There are some who say this policy will lead to war. They are already nonsensically placing this policy which has led to war for twelve years. We have already pointed out that it is impossible to go to war, to live on the pillow, the fire that started on the Alberton, no. 12, the fire that started in the little room. To boycott the aggressors is to keep from Fascists the necessary implements for war. It is precisely because they are at the rope's end economically that the Fascists must resort to war. To boycott them is to break them. This means peace—no war.

We must not accept a defeatist attitude or believe we are lost. The Fascists are moving up. We are not beaten to the draw.

Frank Herbert

This is the first of a series of discussions to be written by students and Faculty on the problems of war and peace. Next week a "Peaceways" will be written by T. Kellough '31, Editor.
