Adopted Hospitals Sends Thank You

Dear Miss Cobin:

On behalf of the patients of the Bellevue Hospital, I wish to thank you for your kind donation of books, games and puzzles. We hope in the patients of this hospital are benefited and comforted by them. Please extend our appreciation to all those who contributed so generously.

Sincerely yours,

Chair, M.C. Public Relations Officer

WS Supports Wagner Bill

The last in a series of War Seminars was held on December 22, when the problem, Social Insurance, was discussed before a large group of students in the 10:30 A.M. Room. Professor Charles Fowler, of the Economics Department, and Robert L. Sherrill, the Director of the National Bureau of Economic Research, were the invited guests.

The various phases of social insurance were discussed by the first speaker, Professor Fowler. The Social Security Act of 1935 was pointed out, was a "very con siderable" act of Congress, which included the dependents, and which were considered for credit.

The actual evaluation of the work completed in these courses will be handled by the various departments of the College. The Committee on Courses and Standards has entered and the work will be evaluated in much the same manner as it is handled in the case of the student entering the College with advanced standing.

College Adds New Courses

Twenty-eight tuition-free courses in engineering, science, and management will be offered by Columbia this spring term under the Army Specialized Training Program of the United States Office of Education. It was announced today by Professor William Allan, the Civil Engineering Department and institutional representative in the nation, also gives instruction in the Army Specialized Training Program.

Included among the courses will be classes in Engineering Mechanics and Basic Design Methods; Fuel and Air; Defense; Plastics, Rubbers and Allied High Polymer Engineering Materials; Principles of Chemical Engineering; Production Practice; Quality Control; Control and Analysis; Time and Motion Study; Ultraviolet Frequency Techniques; and Foremanship and Management.

Applicants for admission to engineering courses are advised to come on January 19, 20 or 21 to the Robert M. Bean Building at 10:30 A.M., at 125th Street and Amsterdam Avenue. Those wishing to enroll in management courses should appear in person on January 19 or 20 from 7:30 to 9:30 pm in the Auditorium, Commerce Center, City College, 23 Street and Lexington Avenue.

Student Council Asks Committee Leadership

At the annual meeting of the Faculty Council held on December 19, 1943, the resolution of the Student Council for the establishment of a committee to consider the cases of the faculty was adopted. The resolution was handled by Mr. B. Culpepper, who was the first speaker, Professor William Allan, the Civil Engineering Department, and the Committee on Courses and Standards, which was ready for the work.

In general, therefore, work will be evaluated in much the same manner as it is handled in the case of the student entering the College with advanced standing.

WAC Opens Bond Drive

BOND DRIVE — As its final campaign of the term, the War Activity Committee, in cooperation with the Student Council, is inaugurating a bond drive program to begin with. A minimum of 5,000 bonds will go to the WACs in the United States, with the number of bonds to be sold based on the amount of money realized in the drive.

The bond drive will also be used to benefit the war effort, and will be conducted in accordance with the rules and regulations of the Department of Education and the War Bond Commission.

Student Council Meets for First Time

The first meeting of the Student Council for the spring term was held on January 19, 1944, in the auditorium, Commerce Center, City College, 23 Street and Lexington Avenue. Those wishing to enroll in management courses should appear in person on January 19 or 20 from 7:30 to 9:30 pm in the Auditorium, Commerce Center, City College, 23 Street and Lexington Avenue.

We Suggest...

The resignation of Dr. Daniel S. Beinecke as Faculty Advisor to the Student Council brings a very serious problem to the Princeton community. The question is not whether the good doctor has done it justice, but because of an extremely busy teaching and extra-curricular program, we suggest that he has been forced to resign. As a result, the depression that might be drawn in is that there aren’t enough people qualified to take on the job of a competent instructor to assure the students that they are still the same person who takes the same old as long as the necessity is needed.

Alternatively, another reason might be in the way of the students either deferring or giving a grade. This too is improbable because of the way in which Negley has the students do their work.

This leaves us with only one answer and it lies in the original statement that Dr. Beinecke made when he took the job. He was advised to resign because he was too busy. If it can be assumed that there are enough individuals to allow him to assume some additional responsibilities, the number of students that he can handle is not increased.

The only possible solution to this problem can lie in the replacement of the administration that extra-curricular work is an important and vital to the development of a democratic society. It is a subject which should be far beyond the control of individuals who are not schooled in the capacity to do so.

We don’t know exactly how this might actually be put into working order but we do know that the situation

Sports Paradox

It's Do Or Die For Beavers in Brooklyn Clash

By Harvey Salsher

It's a great feeling to walk out of Madison Square Garden after witnessing a sparkling triumph by your own team. You feel as though you've been able to contribute in a small way to the success of the day. You feel that you're part of something bigger than yourself. You feel good about yourself. You feel good about your team. You feel good about the world. You feel good about life.

And yet there's an odd twist to it all. There's a kind of melancholy that sets in. You know that the win doesn't mean much unless you can back it up. You know that the win doesn't mean much unless you can make the fans happy. You know that the win doesn't mean much unless you can show the world that you're doing your best.

So it's a mixed feeling. You're happy, but you're also sad. You're happy, but you're also scared. You're happy, but you're also alone. You're happy, but you're also lost.

And yet there's a kind of hope that shines through. You know that the win doesn't mean much unless you can show the world that you're doing your best. You know that the win doesn't mean much unless you can make the fans happy. You know that the win doesn't mean much unless you can show the world that you're doing your best.

And yet there's a kind of hope that shines through. You know that the win doesn't mean much unless you can show the world that you're doing your best. You know that the win doesn't mean much unless you can make the fans happy. You know that the win doesn't mean much unless you can show the world that you're doing your best.

And yet there's a kind of hope that shines through. You know that the win doesn't mean much unless you can show the world that you're doing your best. You know that the win doesn't mean much unless you can make the fans happy. You know that the win doesn't mean much unless you can show the world that you're doing your best.

And yet there's a kind of hope that shines through. You know that the win doesn't mean much unless you can show the world that you're doing your best. You know that the win doesn't mean much unless you can make the fans happy. You know that the win doesn't mean much unless you can show the world that you're doing your best.

And yet there's a kind of hope that shines through. You know that the win doesn't mean much unless you can show the world that you're doing your best. handed a charter to an organization which he insists blacks, or resident, the school's campus. However, the cheapest thing about the happening of the story was the impotence that City was the only college to accept the YWCA into its extra-curricular ranks. There was no such fragment mention of Robert Lupa, NTU, or Bernard when they cherished so much of the very same national affiliation. Thus it appears that somebody, somewhere in the course of action, desired to maintain City's name regardless of the nature of the fair play. This led back down to several conclusions: First, the student who handles the "Track" business on the

Sea Drive Successful

It was reported by Alpha Phi Omega, the Service fraternity, that its recent sale of Christmas seals netted close to 50 dollars. The proceeds of the week-long drive will be turned over the National Tuberculosis Fund.
