State's Soldier-Vote Form

In order to comply with the state regulation which specifies that servicemen write for an application requesting an official ballot, The Ticker is printing the accepted state soldier-vote form. This will save them the trouble of having to write for an application which entitles them to vote in the '44 election.

The Ticker urges those not eligible to vote who receive this issue with the application, to pass it on to their buddies who can use it. Both Ticker Tape and Ticker will print this same form in future issues to meet the needs of the large numbers of potential soldier voters.

So That Soldiers Can Vote

Lillian Wein '44 is to be congratulated for her fine recommendation that we print the State's Soldier's Vote Forms in The Tickler which will be mailed to 1460 College Men in service. We should not stand by and allow the Congressmen to defeat the federal ballot to fulfill the opportunity for service of our soldiers on their minds in their elections. Under the present set-up, the New York Soldier must first write for a state vote card, and then resubmit it to the Official Undergraduates of the Art. Be sure to return the completed forms on time.

Did You Know

By Susan Berlin

It seems that 90% of the football fans who scored 4 points or more were students at Columbia.

A Fine Idea

This week marks the debut of what may well prove to be one of the most valuable activities of the semester. A fine idea for returning to City is being formed (see box on page 1). The idea can be justified on many grounds, and is certain to meet a very warm welcome. The situation and the need for an assignment, and promote their enrollment in colleges for the benefit of returning students to City, is being planned. Together with the college administrators, the students can plan a course of instruction for the benefit of a student body which will want a thorough and well-organized education after demobilization.

Summer Frosh To See New 'Beaver Handbook'

By Al Aaronson

Work has begun on the third edition of the Beaver Handbook, the City College freshman guide. The Handbook, under the co-editorship of Al Aaronson, representing Sigma Alpha, and Jack Roth, representing Lock and Key, will go to press on or about May 5.

This edition will be the official guide for all freshman entering this summer and fall: the class of '48, and the next spring, the class of '49. The book will be completely revised and edited and will contain many new topics, among which will be school traditions, hints for freshman organization of the freshman class, financial publications and college structures. All publications and clubs of the college have been requested to submit articles on their structures and functions for publication.

When first published, the Handbook was solely for the School of Business. The first edition was in reality an experiment because before then, the Levered Handbook and School of Business Guide were sold to the students. It proved a tremendous success and has now grown to include all schools of the college. The Handbook is jointly sponsored by Sigma Alpha and Lock and Key, the downtown and uptown undergraduates honor societies.

The Handbook is expected to reach all students before the opening of school in September. The Handbook will be available for the price of five cents for the first printing. Color and design will remain in the book, as will the complete contents of the previous edition, adding some new content to the book.

The Handbook will be sold in the college bookstore and at various other outlets throughout the city.

The purpose of the Handbook is to provide a comprehensive guide for new students, giving them information about the college's various programs, clubs, and organizations.
