Prof. Michael J. Keleher, sub-chairman of the Department of English at City College, who was in charge of the School of Business division, died of heart attack last Sunday. He was 60 years of age.

Having specialized in Celtic language and culture, he planned to retire in four years to the Galilean, a part of Ireland where the ancient and tradition is still very much alive.

Born in Lawrence, Massachusetts, Professor Keleher graduated with a B. A. degree from Georgetown University in Virginia and held his position there two years later. Following his studies at New York and Columbia Universities, he did post-graduate work.

In 1929 Professor Keleher joined City College as a member of the Faculty of Harris High School. He often sided with the boys whom he had taught for twenty years. Appointed an assistant professor in 1955, he was chosen sub-chairman of the Department of English three years later.

One Out of Every Six Students Appears on Probationary List

After a compilation of marks and averages of the preceding Spring term, it was tabulated that 2680 of the Day Session students are on probation this semester. This number represents 16% of the student body who are eligible for probation, or out of every six.

The distribution of probationary students is as follows:

- Upper Senior: 247
- Lower Senior: 1
- Upper Juniors: 4
- Lower Juniors: 13
- Upper Sophomores: 63
- Lower Sophomores: 63
- Upper Freshmen: 182

Much of this group is comprised of transfers from evening sessions where a C average is not required, re-entering City College students who have been dismissed from the college at some previous time and returning veterans to whom a more liberal policy for entrance has been extended.

The main reason for the high percentage is that the Senior and Junior classes, which normally have very few students on probation, have been greatly depleted in recent years, while the Freshman and Sophomore classes remained constant, so that the totals do not present a true overall picture of the scholastic abilities of the CCNY student body.

The preceding is in part the explanation of the large percentage of probationers. The fact that requirements for entrance have been lowered to an 80% average in those of the former 88% because of the war, has been considered significant. Another contributing factor has been the placement in Math 43 and 48 by Freshmen.

"Whether you have a grade of green, an orchid or a black, it is what we want," said Phil Tarf's Editor. "Keep your grades up, and the Ticker will air them where they will be heard among the students.

"And if you are one of the 2680 students on probation, you had better do your homework to keep your grades up, or you will be left behind in the major league with the Freshmen.""
Tribe joins Bond

Thursday marks the end of our last War Bond drive. With the ending of the Eighth Victory Loan, the student's participation was asked to be drawn down to a formal close. The showing was marked by a large number of bonds bought outside the college and credited to us. The money thus raised was used to buy bonds or places in the bond purchase program. The group is planning a final gesture to the students for their support.

Dick Craig Chooses City As His Favorite

By Bob Goldbloom

After making the trip to City College for the first time last week, Dick Craig was surprised at the first impression he had of the school. "I was really surprised at the size and appearance of City College," he said. "I had heard a lot about it, but I had never been there before." Dick Craig, a native of New York City, has been attending the school for about six months now and has become quite familiar with the city and its schools. "I really enjoy being here," he said. "It's a great place to be and I'm glad I made the decision to attend City College." Dick Craig is a member of the track team and also participates in the city's swimming program. He plans to continue his studies at City College and is hoping to become a teacher someday. Dick Craig is a native of New York City and has been attending the school for about six months now. The group is planning a final gesture to the students for their support.

City and Holy Cross in Garden Sat.;
Holmen Defeat Wagner 59-37

First Meeting

In 23 Years

City basketball quickly demonstrated their superiority over Holy Cross in the opening game of the Hoosier Classic Saturday afternoon at the West Side Armory. By a score of 59-37, City defeated Holy Cross in their first meeting in 23 years.

Box score:

City 59
Holy Cross 37

The game was fast-paced and exciting, with both teams putting up a good fight. City took the early lead and never looked back, maintaining a comfortable lead throughout the game. The City defense was strong and stopped Holy Cross from scoring efficiently.

City's star player, Jack Johnson, led the team with 19 points, followed by Bob Smith with 15 points. Holy Cross' top scorer was Tom Smith with 18 points, but it wasn't enough to overcome City's superior performance.

City's coach, Coach Thompson, was pleased with his team's performance and praised their hard work and dedication. "Our players worked hard and put in the time," he said. "They deserve this win and we're excited to continue our success." City's next game is against Fairfield College next Saturday.

Hilarity Hits PET Friday; Sassy SOOT To Set Stage

By Roy Cohhstock

The Skin of Our Teeth, the comedy to be presented by the Harper College Dramatic Society in the PET on Friday and Saturday in a preview performance showed fine characterizations which have been molded by the ability of the directors into a worthwhile production.

The immemorial rehearsals to insure the success of the play have not been in vain, as the play moves quickly from the opening scene and goes through to the last act without decreasing in interest. Its theme is a satire on marriage and gives the plot its audience makes the play rather direct from the world of the

In the Lexicon Of Ice Tobacco—comedy and used to publicize the discussion.

Literary Staff of the Wednesday at 4 in the I., will have assignments and methods for character and stock who are strikingly alike in the way, it hopes to educate them in life and colleges. These will be kept secret until after the opening performance.

The Skin of Our Teeth is a satirical play which deals with the people and events of the last century. It is divided into three acts, each of which is placed in a different setting. The first act is set in a drawing room in New York City, the second in a ballroom in Paris, and the third in a restaurant in Chicago. The play is a study of the human condition and the way it changes over time.

The Skin of Our Teeth is a play about the people of the United States in the early 20th century. It is written by Israel Zangwill and was first produced in 1945. The play is set in New York City and follows the lives of a group of characters as they go through the events of the 1920s and 1930s. The play is a satirical look at the people and events of the time, and it is a study of the human condition and the way it changes over time.
