CCNY Radio Conference Opens Tonight In PET

By J. Arnold Klein

Sponsored by the CCNY School of Business and Civic Administration, the Third Annual Conference will be held today and tomorrow in the Pauline Edwards Theatre to discuss "Radio and Its Public." As an innovation this year, pair of the conference will be broadcast on local radio stations.

### Theatron Offers Comedy-Mystery

Mystery and laughs will reign supreme when Theatron brings "Arsenic and Old Lace" to PET on Friday, Saturday and Sunday. This will be the last production of Merit and Honor Men Award winners. Portions of the morning will be presented at this session.

### ABC Wins Award

The Metropolitan Network Radio Award goes to the American Broadcasting Company for progressive and public radio programs and for effective public relations. Other award winners include: EFGF of Los Angeles, WMAQ of Chicago, WNBC and WLW of Cincinnati. Also on the agenda for the last day is the presentation of the only major insignium of the city. The moving foresman will be presented to the stars of the various varsity squads.

### Nine To Receive Insignium Award

In recognition of outstanding and diversified service to the college, nine graduating students were voted Student Council Insignium Awards during a seven-hour closed session of the Council Friday, by Russell R. Shuman, Student Council president, business manager of Theatron and Grand Secretary of Phi Alpha. The insigniums will be presented to the stars of the various varsity squads.

### Sport Celebrities Honor Holman, Varsity Athletes

Numerous additions to the roster of sports celebrities scheduled to present at the All-Sports Dinner at the Hotel Astor, tonight, assures a well-rounded program for the long turnout which is expected.

It has been traditional for City students to give generously of their time and effort to create the most efficient and attractive building possible. Our building is crowded and uncomfortable and for that reason the installation of improvements we feel is sorely needed.

Everyone seems to consider that because of the cleanliness of 15 Lexington Avenue, it is impossible for City College to have a building which is not as good as or better than that in existence. We would therefore like to point out that we are not trying to compare the conditions in our building with those existing at other institutions. However, we are trying to promote the installation of improvements we feel are needed and which will not only make our building one of the best but also one of the most efficient.

The first step in this direction would be to bring the building up to modern standards. This would involve the installation of improvements which would provide with adequate working power and a most important building in the United States. This building has a general atmosphere which we consider is very good.

Actual statistics show us that City College is the largest school in the country. This school is one of the few in the country which has a large student body. This student body has a general understanding of the college and its objects. The installation of improvements we feel are needed and which will not only make our building one of the best but also one of the most efficient.

The installation of improvements we feel are needed and which will not only make our building one of the best but also one of the most efficient.

We feel that the installation of improvements we feel are needed and which will not only make our building one of the best but also one of the most efficient.

Honor Society Accepts Record Student Group

An unprecedented number of City College students, 46, will be inducted into two national business undergraduate honorary societies, on April 5, in the Faculty Council Room. After the ceremonies, dinner will be served at the Parkside Hotel.

Requirements for election to the society are on the same basis as those of Phi Kappa. The students chosen for membership in the society are those of high scholastic attainments.

Students Land Jobs Via Club

In answer to a definite need for part-time positions in the foreign commerce field by students of the college, the Foreign Trade Society is making an all out drive to place members in such jobs.

Carrying its drive to foreign trade journals and weeklies, the society has already received offers for positions and expects to aid at least eight members desiring placement.

"When the Foreign Trade Society was founded one year ago, we were approached by Mr. Charles Morris, president of the Foreign Trade Association of New York, and we were told that we had to institute a campaign to satisfy the members' desire to work in their major field. We want experience and we aim to give it to them,"

The society has tentatively scheduled a tour to a large steamship company in order to acquaint its members with the "behind the scenes" workings of the dock and shipping facilities.

At the last meeting of the club, Mr. Joseph Cardinal, secretary of the American Foreign Trade Association, spoke on his organization and answered questions relating to the position of the national export and import industries.

freedom—freedom from fear?

The Ways and Means Committee firmly believes that a civilian service employee's first and foremost loyalty should be to the government. But that this fact must not be used as a means for the complete suppression of speech and freedom from fear.

We urge all organizations at the university, including the Truman of their alarm and distrust of any efforts to muzzle discussion, and urge them to follow the lead of the Truman committee.
