Pressing Matters

By Eliot Press

It has been suggested, as an idea, that we should immediately begin to think about future management. If such a plan is adopted, the organization will certainly be to the credit of its adherents. The plan will give us the opportunity to do something about the future of the organization, and to think about what we can do to improve it.

How Time Flies!

A Peek At The Past Semester

By Hal Monr

You stand at the bank of the river and watch the current flow. You realize that the river will continue to flow, and you then realize that, although any years may come, the river will still flow.

And then you picture the current of which you are a part. The river is flowing, and you are a part of it. You are a part of the future, and you are a part of the past. You are a part of the present, and you are a part of the future.
Alumni Group Begins Drive To Enroll New Members

By Ruth Rinkland and J. Arnold Klein

With a total membership representing more than 27 percent of the entire City College student body, the Alumni Association has opened a drive to enlist the newly graduating students. The first project for this year is the policy plan with the "47 Class Fund as beneficiary. The policy plan was designed to carry out the old procedure whereby each class, commemorating its 25 anniversary, had a fund raising campaign with proceeds going to the Alumni Association. These policies, it is expected, will be $50,000 annually with the $250,000 that will go to the association.

The new Executive Committee, which is at present made up of 25 members, will meet at the Century during the last meeting of the term. The final meeting, which is to be held at the Century, will be a farewell to the Century and the Century will be the Century in the Century. The Century will be the Century in the Century.

The new policy plan is a series of lectures on women's studies, the lectures being given by the Century Association for the benefit of both alumni and undergraduates. The Century will be the Century in the Century.

The outlook for jobs is not very encouraging, according to Mr. Robert Kelly, director of the school's career counseling center. The majority of country openings have already been filled. Nevertheless, occasional openings do come in, but they are the exception rather than the rule. Jobs within the city are scarcer, but here the situation is being addressed by an interview with the Century. Many job opportunities are offered part time, but will be filled full time during the summer months and the Century will be the Century in the Century.

The membership of the Class of '47 who have joined the "47 Alumni" was elected Scribe and Treasurer at the Annual Meeting on May 20, 1947.
