**NSA Vacancies Attract Three Eager Candidates**

Tomorrow at 10, election of school officers and representatives will once again take place. In view of the interest being shown in the NSA, it is to be hoped that students will turn out to vote. It is encouraging to see so many students actively participating in student government, and not merely as citizens. Also it will not restrict their future to take up a preponderance of Council's time and will enable students to become more aware of the vital issues of the day.
