Coffee has gone up from 5 to 7c; Danish and other hot foods from 9 to 12c, and certain grilled foods have been increased in price. This decision to raise these prices was arrived at by fostering of statistical Association, which was written and will be distributed to all attendees. Recipe for Improvement

Ah, the annual Student Council Race! This year, students have a chance to make some real improvements. The Student Council has potential which has been ignored too long. Many members of the Council are not active enough or interested enough in what they are doing. The Council is not representative of the student body as a whole. There are a number of SC members who are basically interested in some of the things the Council does, but most members are not.

The election of new Council members will be an opportunity for some ideas to come into the Council. New members will have a chance to make some improvements which have been needed for a long time. It is important that the new members be willing to work hard and devote time to the job. The Council needs more members who are interested and dedicated to their work.

The National Student Council has a lot of power and influence. It is important that the new members be able to use this power effectively. They will have to work with other organizations, such as the Students' Union, to make sure that the student voice is heard.

The new members will have to be able to communicate effectively with the student body. They will have to be able to make their ideas known and to explain them to other students. They will have to be able to work with the administration to make sure that the student voice is heard.

The new members will have to be able to handle the responsibilities of the job. They will have to be able to make decisions and to carry out their plans. They will have to be able to work with other members of the Council to make sure that the job is done.
