Gallagher Addresses Opening Convocation On Plans for CCNY

"We need no totalitarianism, either of the Right or of the Left, to correct the ways of Democracy. We who find our genius in the young men of life, princes of the provinces, hear no ransom voice from the provinces, no rallying han­dlang from Moscow, to tell us what human values are, or what it means to be an American, a New Yorker, a student at City College and a molder of our own destinies."

This was a statement made by Russell B. Gallagher, president of City College, in an address before the students of the School of Business and Civic Administration Wednesday afternoon.

Dean Norton officiated at the convocation which featured Dr. Gallagher's address.

Dr. Gallagher further stated that the native New Yorker is the student of City College and a member of the Student Faculty Committee, a position he holds by virtue of his status as president of the college.

Dean Thomas Norton

Some small segment of the city.

He stated in his address that many persons have approached him in some capacity and one with a question on their minds, What plans do you have for City College?

He answers it by saying, "I do not come to this with the excitement of the future in my hip pocket. I wish to study, to learn, to know the College better, before pontificating.

Dodd Claims Reds Placed in Faculty

City College has a unit of three or more card-carrying Communist Party members in its faculty, according to Dr. Bella V. Dodd, in testimony given to the Senate Internal Security subcommittee.

Dr. Dodd, a former member of the national and state executive committees of the American Labor Party, also cited other leading colleges in the nation, especially the schools in New York City, as having Communist teachers within their staffs.

As a result of her testimony, several teachers, from Brooklyn, Hunter and Queens Colleges, as well as from Columbia and Rutgers Universities, have been called before the Senate subcommittee, headed by Senator Homer Ferguson, to answer the question "Were you ever a member of the Communist Party?" To this query, Harry G. Albaum, a biology professor at Brooklyn College, stated that for seven years he was a member of a Brooklyn College faculty Communist cell, which was called "maybe twenty" members.

Dr. Dodd claimed that these teachers, who were employed by the colleges, were "not alert" enough to realize they were being used as fronts.

Dr. Dodd stated that many Party members obtain posts in schools of education, where "they affect the philosophy of education and teach other teachers." She further stated that three hundred teachers might be influenced in this way.

The Senate subcommittee is seeking to determine if our educational system is being undermined by organized subversive elements. Senator Ferguson said that he believes the educational situation in scope and would "sketch a broad, general picture, leaving the determination of individual cases to State and local authorities."

Talent Being Sought For Variety Revival

Talent is being sought for the Student-Faculty Show which has been held every year. In the past two years, however, the show has been discontinued. This term it will once again be revived.

Professor Louis J. Cas, chairman of the Speech Department, will direct the show and will interview people on the faculty and students. Opportunities are open for all talents, from clowns, street performers, and others connected with the College.

The first production of the show was held in 1948. Since then two succeeding shows were held, the last being presented in 1950.

The show is in need of offers for variety in addition to acting talent. Anyone who can do staging, lighting, or writing can add their talents to help make the show a success.

Club Reps Gather Today To Plan Activities Fair

A gathering of representatives from all School organizations to discuss the allotting of booths for the term's Activities Fair will take place this afternoon at 2 o'clock in the Game Room on the ninth floor.

Sponsored by ICB to promote interest in the varied extra-curricular activities offered to students, the event will center about a futuristic theme.

Booths will be created to follow the general idea. Crepe paper and thumb sketches and lyrics for the show. In the past they have done so with remarkable results to the enjoyment of the audiences.

The second motion requesting a waiver of the forum rule was presented to President Gallagher. The rule allows the forum type meeting to be held with full participation of all conflicting stands presented.

The special meeting of SFCSA, held Thursday, two motions regarding the rule were presented. The first motion, passing unanimously, provided that a sub-committee investigate the "desire of the student body" to change or amend this rule.

The second motion requesting a waiver of the forum rule was presented to President Gallagher. The rule allows the forum type meeting to be held with full participation of all conflicting stands presented.

ROTC Honor System Inaugurated; Advanced Cadet Classes Affected

The ROTC Honor Committee, initially organized last semester under the guidance of Major Robert S. Stenner, assistant professor of Military Science and Tactics, held an orientation meeting yesterday in the Uptown Drill Hall.

The committee, an outgrowth of the OTS student's requests and the 1949 report of the Department of Military Science and Tactics' encouragement, familiarized itself with the board's system's constitution drawn up last semester.

Subsequently, each member of the faculty, that is, the members of the Honor Committee, is elected by their classmates and will return each May to vote on the continuation of the class as a whole. The constitution itself provides for a sequence of punishments which one must face after being found guilty of illicit practices.

A trial board, composed of three of Honorary Committee members and one third that number of cad­mates, will determine guilt in any case presented before it.

Colonel Malcolm W. Kamer, commander, alone will reserve the right to review the decisions of the trial board. He is employed to commit punishment, meted out by the board, but he cannot go beyond constitutional limitations in punishing an offender.

Although Mr. Hallinan will not be permitted to speak in the Great Hall, permission will be granted to SC and YPA to allow the ex-California lawyer to speak before a rally on the Uptown campus. Scheduled to appear with him is the ALF, Progressive Party, and the American Labor Party, New York, and aetteady, voted in favor of allowing Mr. Hallinan to speak at the Great Hall.

Two weeks ago, Uptown SC, by an 18-3-2 tally, voted in favor of allowing Mr. Hallinan to speak at the Great Hall. The vote, however, proved to be only of token value, as the New York Times on whether a "controversial speaker" may appear at the Great Hall.

The forum rule, of this equally divided ticket, is a faculty-cum-studentolu, stating that "no contro­versial speaker may address a large Hall assembly unless a forum type meeting is held with all conflicting stands present­ed."

At the special meeting of SFCSA, held Thursday, two motions regarding the rule were presented. The first motion, passing unanimously, provided that a sub-committee investigate the "desire of the student body" to change or amend this rule.

The second motion requesting a waiver of the forum rule was presented to President Gallagher. The rule allows the forum type meeting to be held with full participation of all conflicting stands presented.

The second motion requesting a waiver of the forum rule was presented to President Gallagher. The rule allows the forum type meeting to be held with full participation of all conflicting stands presented.

This will mark the committee's initial appearance of the semester before City students. The last term's Activities Fair will take place this afternoon at 2 o'clock in the Game Room on the ninth floor.
Give Scholarships In Graduate Work

The Fall semester brings the availability of graduate and research scholarships to American students for the 1955-56 academic year, under the terms of the Fulbright Program. If you have not been advised of the availability of these scholarships, you should contact your guidance counselor or the Admissions Office of the university where you plan to study. Scholarships are available in all fields and those who are interested and willing to do further research projects may study in fields of their own interest.

The Fulbright Program offers students and teachers the opportunity to work in all fields and those who are interested in doing research may study in fields of their own interest.

progress

Student Council has finally lifted the head from the sand and is attempting to publish something new, which is an encouraging sign. It is a step in the right direction. It shows that even if we are at the point of existence itself, we have finally taken the first step to creating something new. If we are to benefit from the future, we must benefit from the near future.

The last meeting on the issue considered involved members of the Student Council and the School Business and Civic Administration. There is more than one purpose to this activity, but our purpose is to assist with a Freshman Orientation program. The time is running out, and we must take action now. We have seen the needs of the students and of the teachers. The time is running out.

The School Business and Civic Administration will be held today, Tuesday, October 1, from 2-4 PM. The meeting will be held in the school auditorium. It is important that all interested parties attend. The time is running out.

New Student Council has the opportunity to contribute to the needs of the school. No one can tell whether the proposed program will be successful or not. It is called the Student Council and is the most successful of its kind. It is almost certain that the system proposed will work out. Even if it should prove no better than the system which was proposed, it would still be better. Only by trying it can we tell whether the proposed procedure is actually as effective as each侧面.

LEXICON 53 Room 297
Boomers Trip Alumni In Opening Tilt, 4-1

By Larry Pollock

Flashing some of the form that enabled it to earn eight of nine decisions last season, the City College soccer team opened its 1962 season in suspicious manner by humbling a star-studded Alumni eleven, 4-1.

The Alumni tilt was a lot closer than the score might indicate. Both teams showed to good advantage in the first half of the game. It wasn’t until 18:06 of the initial period that center forward Bill Saites, after taking a short pass from Jeff Friedman, could tally the year’s first goal and put the varsity in front to stay.

Midway through the second quarter, center half-back Tommy Holm recovered a loose ball and bootil it just over the out-stretched arms of Alumni goalie Norm Cosman for a 2-0 lead.

The sparse crowd had hardly settled in its seats as the 1962 Alumni eleven gained the initial lead nine seconds later, Fred Gold, Nichols of the Alumni continued his amazements with a goal scored in 20 seconds.

In every game that he has played throughout his career, he has been converted from the left side to cut the varsity lead in half.

Initially took care of any thoughts the graduates might have entertained of playing a second half come back when they tallied their second goal of the day to insure the victory for the seniors.

The team moved on to pass from right side Gil Chevalier just before the end of the third session and who did not complete in 1961, grabbed the remainder of Alumni’s pair of goals by booting it in a clean shot at 12:19 of the final quarter.

Coach Werner Rothschild declined to comment on the team’s victory beyond his earlier statements regarding the team’s shortcomings. "Any team that loses its two ton scorers is bound to be weaker," the popular varsity mentor reiterated.

Coach Werner Rothschild was referring to last year’s freshman sensation John Kostiantun, now academically ineligible, and the team’s subsequent graduation.

Evans Repeats Twin Wins In National Chess Tourneys

Larry Evans, who last year became the youngest player ever to win the United States Open Chess Championship, turned in another fantastic performance in the National tournament, which was held at Tampa, Florida, in July. Larry went undefeated in twelve games, winning eight and drawing four.

Prior to the U.S. Open, Evans became convicts in the National Speed Championship, sharing the honors with Daniel Friedman of New York. Since the twenty-five-year-old Cityite was also speed chess champion, his triumph completed for him the brilliant feat of wearing both major American chess crowns concurrently for two years in a row.

Between his successes of 1961 and those of this year, the champion did not remain idle. Last June Herman Steiner, who was the winner of the Open in 1950, but who did not compete in 1961, challenged Evans for the championship. Sixteen matches, to be played throughout the country, were scheduled. After Larry took 11 of the first 14 games, Steiner resigned, and Evans thus retained his title.

The young chess master was further honored by being named to the sixman team which represented the United States in the International Chess Federation tournament held at Helsinki.

FIFTEEN YEARS AGO THIS WEEK: "Under the critical supervision of Marko Benny Friedmann and his staff, the Lavender gridiron have just completed two weeks of anxious training on the violet turf of the Wayne Country Club at-lyler, Pa."

FIVE YEARS AGO: "Another rung on the ladder of the successful career of Sam Winograd was reached late in June with the announcement by Dr. Harry N. Weight of his appointment to the post of Faculty Manager of Athletics."

ONE YEAR AGO: "City College basketball prospects received a further jolt when it was announced that five members of last year's freshman basketball team, including several key operators, have been ruled ineligible because of scholastic difficulties."
