Uptown Student Center To Open Early in 1954
On Manhattanville Site

A Student Center at the Uptown Campus will be in operation early next year, President Buell G. Gallagher announced last week. The conversion of the Academy Building on the South Campus, formerly the main building of Manhattanville College, to a Center will be financed by $1,300,000 appropriated to the City. The cost of equipping, decorating and furnishing the Student Center will be met from Centennial funds contributed during the past five years. Although the Center will be located Uptown, Dr. Gallagher indicated that he expects Downtown students to make full use of the new building for dances, meetings and sports events on evenings and weekends.

Gallagher expressed the hope that a growing body of students and faculty will be attracted to the Student Center and that it will serve as a gathering place for the entire College community.

Sales Courses Change Finals
To "Practical" Applications

By Bob Schaller

In order to teach students to apply classroom theory to actual practice, the business administration department is revising the practical courses this term.

Instead of the usual midterm and final examinations, students will be required to work in small groups to present written solutions to specific problems presented by real business firms.

In RA 510, Sales Force Management, the Brewer Shirt Co. has supplied Professor Louis Fleisher with information about their marketing operations and their major difficulties. As an incentive to good work, the company is offering a $25 Savings Bond for the combined mid-term and final paper that presents the best solutions.

The Bristol-Myers Drug Co.

Batter on Jorgensen: She is Still George

Colorful, controversial Christine Jorgensen has made her entrance into City College life.

After corresponding last December with Dr. Christian Hamburger, the Danish surgeon who performed the internationally publicized "sex switch" operation, Dr. John Banzer of the psychology department has stated that Miss Jorgensen's feminine attributes exist solely in her mental makeup and not in her physical capacities.

Following the psychology department's Sex Forum last week, Dr. Banzer restated the position that the Christine Jorgensen operation in Connecticut was recorded in the Metropolitian press.

"Christine is not a pseudo hermaphrodite, a hermaphrodite of a female," he stated. "Her Army service and discharge proves that beyond a shadow of a doubt. Her sex change is the result of our

TV Action Sought
By New Committee

By Richard Kerner

In an effort to reverse quickly diminishing hopes for the success of educational television in New York State, representatives of fifty colleges and learned societies throughout the State have contributed to the creation of a committee with putting pressure on the State legislature.

Other proposals now pending consideration before the new group are: to support a pilot plan of three stations; to allocate $30,000 to investigate TV possibilities; and to allocate $30,000 to conduct a similar investigation.

The conference was called after the May 30, 1952, meeting on the Use of Television for Educational Purposes, suggested in a majority report of the May 30, 1952, meeting on the Use of Television for Educational Purposes, suggested in a majority report of the New York State Governor's Committee on Television in Education.

The conference, backed by the Brydges-Ohmstead bill, which calls for the support of three stations as a minimum, will seek to abandon all considerations for expending funds on the project.

Options on the ten television channels which were set in "abeyance" by the Federal Communications Commission will expire June 3, unless permits are granted before that date. It therefore appears that educational television in New York State is doomed unless there is a reversal of current administrative policy.

The conference, attended by representatives of the Metropolitan Broadcasting Co., the New York University Television Station, the City College of New York, and the City College Television Station, is designed to discuss the future of educational television in New York State.

Buckett University and then transferred to Princeton University and then to the University of Chicago, where he graduated in 1906 as a class valedictorian. After graduation he worked at the Spring Street Settlement in New York City. He attended the

Ugly Man Vie to Open City Drive

The annual Ugly Man contest, combined Alpha Phi Omega coat checking service and the annual madcap for City College Charities, will open the Student Center Program, according to April 29.

Expanding attempts to find the most physically distasteful male on campus, the contest will reach its climax on April 29, the day after the launching of a $20,000 Tift raising campaign by the organized alumni of the College, headed by Harry D. Spiegelberg '19, general campaign manager.

The purpose of the fund is to provide an operating budget for the Student Center for 1954; to subsidize the operating deficit of the Uptown and Downtown places; and to expand the Student Center for 1954; to expand Uptown and Downtown placement and public relations services.

SMITHSTON

Steve Finesmith, last year's student center president, has been transferred to Columbia College.

$250,000 Received For Weekend Site

A grant of $250,000 for the establishment of a City College campus in New York City was recently announced by the Board of Trustees and President Hubert J. Gallagher in a joint press conference. The grant was made possible through the efforts of Joseph H. sidl, President of the American Federation of State, County and Municipal Employees, and will provide funds for the construction of a new campus site.

The new campus will be located on a 10-acre site in the Bronx, approximately 1 mile from the existing City College campus. The site was previously owned by the New York City Department of Parks and Recreation, but was donated to the College by the city government.

The new campus will be a significant addition to the City College system, providing additional space and facilities for the growing student body. The College plans to begin construction immediately and to complete the project within five years.

Tix Service Sells Seats for Opera..,

The City College Opera will present a new production of "The Magic Flute" by Mozart, directed by John Adams, on Wednesday night at 8:00 in the college's new Performing Arts Center. Tickets are $2.50 for adults and $1.50 for students, and can be purchased at the box office or by calling 123-4567.

Student Council Changes Election Rules To Set Up Voting Booths

The Student Council has amended its election rules to establish voting booths on campus for the upcoming election. Booths will be set up in the Student Center, the Library, and the Science Building.

The change in rules is part of the council's efforts to increase student participation in the election process. The council also plans to hold a campaign rally on the campus green this weekend to encourage students to vote.

Theatre's Exhibit Receives Honors at Superstition Fair

The Theatre's exhibit at the Superstition Fair, "The Magic Flute," received an award for excellence in design. The exhibit, featuring a life-sized model of the opera house, was created by the theatre department and received positive reviews from visitors.

Ruling Bars Austin From Forum Address

Supreme Court of New York has ruled that the appearance of Austin, organizer of the "Mystery Bus," at the forum is unconstitutional. The court ruled that the event violated the state's anti-looting law, which prohibits the distribution of lottery tickets.

The event was scheduled to take place on Saturday, but was canceled after the Supreme Court's ruling. Austin has appealed the decision and is expected to continue his campaign in other states.

Selected Shorts

Theatre's "Mystical Show Window" captured top honors at the Superstition Fair. The window, which featured a life-sized model of the theatre, was created by the theatre department and received positive reviews from visitors.

The theatre department is also receiving praise for its recent production of "The Magic Flute," directed by John Adams. The production, featuring a life-sized model of the opera house, received positive reviews from both students and faculty.

MEN! Avoid the ARMY!

Theatre's Production of "The Magic Flute" has been well-received by audiences. The production, directed by John Adams, features a life-sized model of the opera house and received positive reviews from both students and faculty.

European Journey Includes Culture
By Dean Brownstein
The seven-week Long Island study tour, to be conducted by the Institution of Culture, will provide a study of European culture and art.

Cost of the trip will be $900 for each student and $1200 for non-matriculated graduate students. The trip will include a visit to the Vatican and the Sistine Chapel, reminding of Mardi Gras time in New Orleans.

The plan for the trip will be $795 for matriculating students and $1095 for non-matriculating students. The trip will be on May 6 at the department office, 2229, and will be presented Friday and Saturday.

The trip will include a visit to the famous Casino at Monte Carlo.

In France, there will be a visit to the grand, historic city of London, followed by a visit to the Grand Canyon. The trip will conclude in Italy, where the crown jewel of Europe will be presented.

Schloemer Sets Mark
In Eastern Swim Meet

By Herb Nager
Howie Schloemer, City College's ace freestyler, added two Eastern Intercollegiate swim records to his already impressive string of triumphs when he won both the 220 and 440-yard freestyle events at NYU's Quigley Memorial Pool, Saturday night. The Beavers, with 16 points, tied for sixth place in the team competition.

Hess Drops Split-Decision
In Eastern Boxing Final

Participating in the Eastern Intercollegiate Championships for the first time since 1956, the City College varsity boxing team placed sixth in the seven-team tourney, scoring a total of three points on James Hess's scratchy win over Army's Clyde Massey in the 165 lb. semi-finals, Saturday at Syracuse's Archbold Gymnasium.

Finance Fiveth
Bows in Final
Of 'Split' Year

The Commerce cagers dropped their final regular season last weekend to finish with mediocre 4-4 mark, but this certainly was no disaster to the record which would indicate.

Quite the contrary, the season can be considered a relative success in light of the fact that Business five lost its first four games of the campaign before coming on to capture four of the last five.

The main factor responsible for this sudden form reversal was the hiring of Jack "Dutch" Gelfinkle as coach of the team. Gelfinkle replaced Dr. Ira Zasekoff at the helm of the five-man group.

Although Zasekoff was officially at the helm of the team, he delegated the coaching duties to the lettermen on the squad.

The innovative approach with the new man's system proved to be an advantage at the start as the team was held in both its offensive and defensive efforts.

Another highlight of the day's festivities was a basketball game played in the Hansen Hall between a squad of graduates and next year's varsity.

The graduates, with Jerry Gold pouring in 21 points, turned back the '53-'54 squad by a 79-71 count.

Wait 'till Next Year:

Bladesmen Last
in IFA

Although overwhelmingly outnumbered, a group of determined sophomores nevertheless slapped down their nifty brethren, 2-1, in the traditional IBA-sponsored mono battle held Thursday in Hansen Hall.

The sophs grabbed an early lead by easily scoring the first point of the game. They held the lead throughout the first quarter and不断扩大ed it to 14-6 by the half-time buzzer.

In the second half, the sophs continued to keep the seniors on the run, finally winning the game, 26-18.

The five seniors were held to 12 points, while the sophs scored 26.

The game was played with fine fighting against NU and Brooklyn for the exciting conclusion of the IBA season.
