CCNY Submits '54-'55 Budget

Calling the requests "less than satisfactory," and indicating they are the absolute minimum necessary for the coming year, President Ruel C. Gallagher has submitted the 1954-1955 City College Budget for the Board of Higher Education. From there it will be passed to the state and federal funds coming from other sources.

The request represents a $4,023,191.55, a 4.5 per cent increase over last year's appropriations. The increases are to provide for operation of the Manhattanville campus, and mandatory salary increments.

President Gallagher said that there is no assurance that the requested funds will guarantee the growth and stability of City College. In the event that appropriations are not a reality, he added, "we have to carry the full load by cutting out programs and suspending assistant professors," he added, "but all of us realize that we have to support the Board in carrying the full load by cutting out programs and suspending assistant professors." The current situation finds the Board without power to vote.

Holman Rests Case; Lloyd May Testify

The long-awaited conclusion of the Board of Higher Education trial moved a step closer yesterday afternoon, as suspended basketball coach Nat Holman rested his defense after a tedious all-day session.

The trial was to have been resumed this morning, but it was postponed until today. Holman has been suspended since May 15.

In a report issued Sunday by the New York City College Board of Trustees, it was stated that Holman's suspension would remain in effect until a trial could be conducted.

The matter was brought to a dead heat yesterday when the Board of Higher Education trial moved a step closer. Holman rested his defense after a tedious all-day session.

Service Frats Gain Seats On Club Board and IFC

Any fraternity "which is inherently a service fraternity as indicated by their charter and their activities" will have a seat on the Inter-Fraternity Council, and an ICB vote on all matters except elections, according to a recently announced IFC amendment to the Inter-Fraternity Council and ICB.

This amendment to the Inter-Fraternity Council and ICB was adopted last Wednesday by a vote of 85-54 for a second time, after two heatedly debated sessions by the Board.

The amendment, which was introduced originally by the ICB at a meeting of November 4, was defeated at that time, and was subsequently withdrawn after a week's cooling off. The amendment was subsequently reintroduced, and was defeated this week by a vote of 85-54.

In other action, the Inter-Fraternity Council and ICB, representing 119 fraternities, enters into a preliminary agreement to add three fraternities to the ICB, effective immediately.

NYU Seeks Neutral Site To Settle Hoop Dispute

Unless final efforts to secure a neutral court materialize to the satisfaction of both parties, there is a distinct possibility that the dispute over the site of the traditional CCNY-NYU basketball game will result in a cancellation of the contest.

The matter was brought to a head last week when the College's Faculty Committee on Intercollegiate Athletics recommended to the Board of Trustees that the game be played at the City College gymnasium.

Colleges Clean Of Reds: Tead

Dr. Ornday Tead, former chairman of the Board of Higher Education, declared last night that the municipal colleges are "extremely clean" of Communist and other subversive influences.

Speaking on WMCA's "Report to the People" program along with the present chairman of the BHE, Joseph B. Cavallaro, Tead praised the current set-up which finds a special committee of the BHE investigating subversives in the city colleges.

"It certainly looks like this committee represents the inevitable way in which to proceed," he commented.

Dr. Cavallaro declared that the responsibility of the BHE in these proceedings is "clear enough." It must, he said, "conform to Section 902 of the Wagner-Steagall Act, the Civil Service law, and the Feinberg law. These proved guilty must be dismissed." The colleges are not "completely free from" these influences. They have been investigated by the BHE and found clean.

There will be no wholesale questioning, the committee will not "sift" the records of the faculty, or investigate the "attitude of the faculty and the administration.

Discussing other issues of importance to the municipal colleges, Dr. Tead and Dr. Cavallaro agreed that municipal college salaries are "not too attractive as of today." However, Dr. Cavallaro said, "I am in favor of a two-year general education program for those who want to continue at a higher level of study."

In a final discussion of curricula, Dr. Tead asserted that the proof of present educational programs will be in the curriculum." The new curriculum will be in place by the fall, he said, "and will be the only curriculum that will have that a boy is playing different things should not be done in sound education."

SA Flowers Attract $110

The Sigma Alpha flower sale, held throughout the School last week, realized more than $1,000 in sales, netting a total of $101. Most of the money collected will go toward the purchase of a new flag for the School, and the proceeds will be used to support scholarships and other purposes.

Bob Dubiel and Sid Kamenman, co-chairmen of the Sale, announced that they were "extremely pleased" with the student interest shown and the financial results.
Ah, The Alert Citizenry

It seems that someone with a sense of humor circulated a petition recently, urging the Student Life Board to consider the possibility of SC holding secretary, instead of a student, for the next president. The petition is signed by a number of students and is intended to bring attention to the issue of student representation in the administration of campus affairs.

The petition is focused on the concern that the selection of a student as secretary would lead to a more active and engaged student body. The signatories believe that this would encourage greater participation in campus activities and lead to a more inclusive decision-making process.

It's important to note that the Student Life Board is responsible for overseeing the student activities on campus. The petition suggests that a student in this role would be more aware of the students' needs and would work to improve the student experience.

This is a timely reminder of the importance of student representation in our decision-making processes. Let's continue to support our student leaders and work towards a more active and inclusive campus community.
In what appears to be the only breather on its schedule, the City College basketball team opens its season Saturday night when it faces a weak Hunter College five at the Memorial Gymnasium, 14th Street and 23rd Street.

If any far away glances are detected in the eyes of the Beaver quintet, they can readily be attributed to the fact that the Polaks have already set their sights on the following week's encounter with Adelphi, a team that upset the Lavender last year.

Hunters lack the experience, court finesse, and overall height to give them much tussle. Last year, in its first season of intercollegiate varsity basketball competition, the Beaver squad bowed to City, 77-52, and compiled an unimpressive 5-9 season mark. The tallest player on the Hunter five in 6-4 Ed Michael, one of the team's better shooting forwards.

In his first year as Hunter hoop coach, Mike Fleischer, a CCNY graduate, expects to field a starting five that will average approximately 5-10. The five positions will be Co-captain Larry Joseph, the team's leading scorer last season, and 6-3 Dick Sciotto. Co-captain Marty Shulman and 6-3 Dick Seott will probably handle the high-scoring rôle while sophomore Bob Salt, who also stands 6-3, will start at center. J. J. O'Malley, 6-4 center, and Michael, one of the team's better backs, are Hunter's top substitutes.

The City cagers, with nine lettermen back from last year's side, have been aided considerably by the transfer from Adelphi, Jerry Domershick. 6-5 center.

College of engie—Franks Lloyd Wright. —MTU

The second session was scored 5-1 by the Hunter five, 6-5 Dick Scott will probably return from last year's five that will average approximately 5-10. The five quintets in the quarterfinals as they marched forward.

The above statement should not be interpreted because of some aforementioned trio in forming the nucleus of the team are Captains Tom O'Brien and Ron Kowalski, 6-2 center, and Ron Kowalski, 6-2 center. The second session was scored 5-1 by the Hunter five, 6-5 Dick Scott will probably return from last year's five that will average approximately 5-10. The five quintets in the quarterfinals as they marched forward.

One of the important factors in any hopes Coach Bruce might have entertained of beating Rutgers was the possibility of getting a rash out of Joe Brogan to match his performance against NYU and Maritime.
