Fifth Amendment Debated; Mayers Proposes Revision

"The privilege of invoking the Fifth Amendment has been a protection to the innocent, but has been a punishment to the guilty. It is a serious obstruction in bringing guilty people to justice." These words, stated by Acting-mayor Mayers, expressed most favorably his position on the question "Should the Fifth Amendment be Abolished?" The President opened the discussion on a Thursday between Dr. Mayers and Osmond E. Freinkel, calling on the American Liberties Union, on the one hand, and the negative view. He noted the fact that in a situation where people base their case on their disavowal of their desires to give an expected answer and therefore are vitiated in their privilege, if the privilege against self-incrimination is removed, it would be so that even more innocent people will be convicted because they may not be able to plead their Fifth Amendment in contradictions. These contradictions, he asserted, will not be logical, put together through the noise about they were really innocent.

Freinkel also discussed the idea that in certain situations, an expectation of information that is divulged by the use of the Fifth Amendment. "There are immunity issues that are not necessarily that have been passed which permit the ability to obtain information. The Fifth Amendment is asking the right of the president to change the Fifth Amendment." Mayers stated that counsel should not be provided for every defendant in certain cases.

Statement of Five Editors Suspended Until Next Term

The following is a statement issued by the five suspended editors of The Campus. The editors state that they have been expelled from the college under the terms of the rules for suspension. They express their regret at being suspended, and they state that they believe that their suspension is unjust. They also state that they will continue to fight for their rights as students and as members of the college community.

The editors are suspended for the remainder of the semester. They are barred from attending classes, participating in college activities, and using the college facilities. They will be required to pay all fees and expenses for the remainder of the semester, and they will be given the opportunity to appeal their suspension.

The editors are also warned that if they violate the rules of the college, they will be subject to further disciplinary action, including expulsion.

The editors are grateful for the support of their friends and classmates, and they hope that their suspension will not prevent them from working to improve the college and the community.

BEAVER STICKMEN EDGED BY STEVENS TECH, 7-6
Coach Leon “Chief” Miller’s estimation of his City College lacrosse team’s chances for winning against Stevens Tech, Saturday, at Hoboken, New Jersey, turned out to be entirely correct, as the Beavers bowed, 7-6.
Prior to the contest, Miller contended, “I see little chance of beating Stevens. How can I beat a team that was stronger than us at the beginning of the season and has improved while we have regressed?...”
As the game opened, the Beavers never led in the contest. The Stevens’ stickmen scored first and took a 2-0 lead at half-time with Bill Miller and Sy Steiglejost doing the scoring for the seniors.
In the second half, Stevens opened up a 6-2 margin before Len Wiper scored the Beavers’ first goal, for the Beavers. With the score, 7-2, City rallied for three goals with Merritt Weiss, who scored two, and Harvey Lapidos leading the way.

With the score 7-4, and two minutes left to play, the Beavers moved the ball deep into Stevens’ territory for a last-ditch try at the net, but a sound passing thwarted the Beavers’ chances for a tie. Walt Johansen, Stevens’ attackman, scored four of the seven goals for the Jerseyites.
Although Stevens opened up an 8-6 margin before Len Wiper scored the Beavers’ first goal, for the Beavers. With the score, 7-2, City rallied for three goals with Merritt Weiss, who scored.
